# Los Angeles Regional Interoperable Communications System

## PROJECT DESCRIPTION

Events of 9-11-01 have highlighted the need for first responders to be able to communicate with each other. Emergency communications primarily address local jurisdictional needs. Most agencies utilize separate radio towers and equipment, often co-located as seen here, and separate radio frequencies.

Currently, there is duplication of costs and first responders cannot communicate with each other. Many legacy systems around the County are obsolete and well beyond their useful life. The LA-RICS Project Vision is to construct, own, operate, and maintain a regional, interoperable public safety radio system. The program will establish a County-wide public safety wireless voice and data radio system for all first and secondary responders. Existing radio frequencies will be pooled and the current infrastructure utilized wherever practical. New FCC licensed broadband spectrum will be utilized.

Design, construction, and deployment of two County-wide systems (1) Land Mobile Radio (LMR) voice network will utilize a pool of 88 existing communications sites and (2) Long Term Evolution (LTE) broadband data network will utilize a pool of 231 existing communications sites. Both systems will comply with CEQA and NEPA standards.

Project and Construction Management Services will provide network, infrastructure, project, and advisory services across 5 program phases for each of the LMR and LTE projects:

- Phase 1 - System design
- Phase 2 - Site construction and modification
- Phase 3 - Supply telecommunication system components
- Phase 4 - Telecommunications system implementation
- Phase 5 - Telecommunications system maintenance

## 1. Executive Summary

The Los Angeles Regional Interoperable Communications System Land Mobile Radio (LA-RICS LMR) program consists of the following five (5) phases; Phase 1 LMR System Design, Phase 2 LMR Site Construction and Site Modification, Phase 3 Supply LMR System Components, Phase 4 LMR System Implementation, and Phase 5 LMR System Maintenance. Phases 1-4 span over a five (5) year period which includes one (1) year of system warranty. Phase 5 provides the Authority with fifteen (15) one year options for Motorola to provide system monitoring and maintenance services.

The LA-RICS LMR program is currently in Phase 1 LMR System Design. Notice-To-Proceed for 1 through 8 have been issued authorizing work for system Design services, the design and implementation of the initial deployment of the LMR system elements termed “Early Equipment”, “Specified Equipment and System on Wheels”, and “Station B Equipment”, “Frequency Licensing”, “UPS System”, and “Portable Radios, Consolettes and Consoles”, and “Portable Radio Equipment”.

The FCC granted the licenses for the UHF (T-Band) frequencies for use on the Early Equipment shipment. The UHF frequency applications for the control stations required an additional waiver and is currently under review by the FCC.

Motorola conducted the LMR System Design Review presentation with the Authority on September 10<sup>th</sup> and 11<sup>th</sup>. The Design Review presentation covered all of the LMR subsystems.

LA-RICS issued Amendment 8 and Notice To Proceed 8 on 8/28/14 to procure 454 APX portable radios and associated accessories. The portable radio equipment and accessories is on schedule for delivery and inventory by the end of September.

This month’s report for the LA-RICS LMR program covers the reporting period from **8/18/14** through **09/12/14**. As of this reporting period Phase 1 is 54% complete. Associated Phase 1 tasks are A&E, Frequency Coordination (begins after final site confirmation), Site Access Agreements and Environmental Review which are in progress. These tasks are driven outside of the RF system design tasks. Once the site access agreements and the EIR process are complete, there will be a true up of the actual final site configuration for the LMR system. The primary Phase 1 activities for this period include:

- LMR System Design (96% Complete)  
The LMR System Design is a compilation of documents that will define the architecture, functionality and performance of all of the subsystems that make up the LMR system. It includes all aspects of the system including performance criteria, reliability levels and testing procedures. System Design activities for this period included frequency identification and planning, evaluation of site parameter changes, development of subsystem architecture, and submittal of revised drafts sections of subsystem functional operations. A final set of site parameters have been selected to complete the coverage design process. Motorola finished the RF design documents and delivered the completed design documents on 8/28/14. A two day design review meeting was held with the Authority to present the material delivered. The Authority is now reviewing the design documents and coverage maps provided.
- Test Plan Development (100% Complete)  
Acceptance Test Plans are a part of the LMR System Design deliverable. The test plans outline the test criteria and procedures that will be conducted during the implementation phase. The

test plans are designed to demonstration system functionality and system requirements. The test plans were delivered along with the LMR System Design documents. As part of the LMR System Design review process the Test Plans will be updated upon receipt of the comments from the Authority.

- **LA-RICS Deliverables - Authority Site Access Agreements**  
 Authority's efforts to develop and execute the applicable site access agreements for the required sites in the LMR design. This task also includes access to the sites that will host the system's core switching network. Even though no agreements have been executed the Authority has made continued progress with the Member Agencies to finalize Site Access Agreements. This activity is primarily being driven by the Authority's Outreach Program. With the change of this activity from a task to a milestone it is no longer measuring progress and therefore we only show 0% or 100% complete for each Site Agreement.

The following table provides a dashboard snapshot of the projects' health signs.

## 1. Executive Summary

The Los Angeles Regional Interoperable Communications System - Public Safety Broadband Network (LA-RICS PSBN) project is a 700 MHz Long Term Evolution (LTE) public safety mobile broadband network that will provide broadband services across the County of Los Angeles for the Authority's Member Agencies.

The LA-RICS Authority was awarded a Comprehensive Community Infrastructure (CCI) Broadband Technology Opportunity Program (BTOP) grant by Department of Commerce's National Telecommunications and Information Administration (NTIA) to deploy the LA-RICS PSBN system. The BTOP grant program requires that the LA-RICS PSBN system be compatible with the future Nationwide Public Safety Broadband Network (NPSBN) currently being designed and developed by FirstNet, an independent authority within the NTIA. Additionally the Authority executed a Spectrum Manager Lease Agreement ("SMLA") with FirstNet for spectrum usage rights to operate on the 700 MHz public safety broadband spectrum (D-Block). The LA-RICS-PSBN system provides the Authority with the opportunity to work cooperatively with FirstNet, while participating in testing and providing input in what will ultimately form the National Public Safety Broadband Network (NPSBN).

The LA-RICS PSBN program consists of the following five (5) phases; Phase 1 PSBN System Design, Phase 2 PSBN Site Construction and Site Modification, Phase 3 Supply PSBN Components, Phase 4 PSBN System Implementation, and Phase 5 PSBN Maintenance. Phases 1-4 must be completed and accepted by August 15, 2015 to be in compliance the BTOP grant program. Phase 5 provides the Authority with the first five (5) years of one year options for Motorola to provide system monitoring and maintenance services.

The LA-RICS PSBN program is currently in Phase 1 PSBN System Design. Phase 2, Site Construction and Site Modification will begin pending completion of environmental documents and Phase 3, Supply of PSBN Components has begun. Notice to Proceed for all work in Phase 1 for System Design services was issued by the Authority on March 10, 2014. Phase 1 primary activities include:

- LA-RICS Deliverables
- Project Management Plans
- System Design
- Site Design
- RF Emissions Report
- Inventory and Management System

On April 7, 2014 the Authority issued a Notice To Proceed for Amendment 2 to add detailed design services to Phase 1 for Additive Alternate 1 – Home Subscriber Server (HSS) and Additive Alternate 2 – Redundant Evolved Packet Core (EPC).

On June 20, 2014 the Authority issued Amendment 3 to exercise the Unilateral Options for all Work pertaining to Phase 2, Site Construction and Site Modification, and Phase 3, Supply PSBN Components. The NTP for Amendment 3 was issued on June 20, 2014, to begin ordering the equipment. Microwave equipment is excluded from the NTP until the Authority has approved the backhaul design and issues a NTP. NTP 3 also authorizes Motorola to proceed with all planning and non-site mobilization work related to Phase 2, Site Construction and Site Modification, however, no construction work at a specific project site location will be conducted until the Authority has received all required NEPA and/or any other applicable Federal and State Environmental approvals for each specific location.

On July 10, 2014 the Board of Directors approved Amendment 4 for Phase 2, Site Construction and Site Modification, and Phase 3, Supply PSBN Components of Additive Alternate 1, Home Subscriber Server (HSS) and Additive Alternative 2 Redundant Evolved Packet Core (Redundant EPC).

On September 8, 2014 the Authority issued NTP 4 to proceed with Work related to Supply PSBN Components under Phase 3 for Additive Alternate No. 1a Home Subscriber Server (HSS). Notice To Proceed for Phase 2, Site Construction and Site Modification for Additive Alternate No. 1a Home Subscriber Server (HSS) is anticipated within the next two weeks. Additionally, Motorola is awaiting the Notice to Proceed for Additive Alternative 2 Redundant Evolved Packet Core (Redundant EPC). An Amendment and Notice To Proceed for Phase 4 PSBN Implementation is anticipated to be approved by the Board in the next reporting period to keep the program on schedule.

This report covers the period of time from **08/18/14** through **09/12/14**. The overall project completion date remains at 8/14/15.

Phase 1 consists of LA-RICS Deliverables, Project Management Plans, and System Design and is 71% complete as of this period.

The primary Phase 1 activities for this period include:

- LA-RICS Deliverables (74% Complete)  
Tasks that are currently in process with the Authority: City of Los Angeles Site Access Agreement, Independent cities ROE, SHPO site approvals, NEPA clearance, and Site Access Agreements.

The following are the reported activities for this period that are a part of the System Design summary task:

- System Design Activities (97% Complete)  
Core system design is 100% complete. The backhaul system is 90% complete. The Inventory Management Subsystem Design is on a separate development track which is 100% complete as of this period.
- System Design Review (71% Complete)  
System Design Review consists of the submittal and presentation of the detailed design and the incorporation of Authority edits. The primary system detail design was submitted and the official design review was completed. During this reporting period, Motorola submitted the revised Detailed Design Document, which incorporates the Authority's comments.
- Site Design Activities (73% Complete)  
Activities for this task include site walks, site surveys, and geotechnical/geological site surveying authorization. As of this reporting period 222 sites have been walked to identify potential equipment locations. The total number of site walks will exceed the original 232 site list due to several site changes. Sketches of each site have been created to identify primary and alternate locations for the placement of towers, cabinets, and generators. 220 sketches have been delivered to the Authority for review and a total of 197 sketches have been approved. Upon completion of a site sketch approval, a site survey is conducted. 185 sites have been surveyed as of this reporting period. 22 sites are on hold for design work pending outreach. 10 sites have

been removed. 16 sites are at new locations and will start the design process over. 85 sites in total have Authority requested changes to the antenna support structure.

Site access approvals and or Right of Entry agreements are required to perform site walks and site surveys for the remaining sites consisting of Independent Cities’ facilities and specified County properties that require parcel owner agreements. State Historical Preservation Office (SHPO) approval is required prior to conducting any geotechnical/geological site surveying work. The geotechnical survey is required to develop a tower foundation design.

The following are the summary tasks that are a part of the overall program but are not linked under Phase 1 in the schedule:

- Zoning and Permitting (Phase 1c) (38% Complete)  
Activities for this task include the FAA Determination findings, Geotechnical/Geological site surveying reports, Construction Drawings, Zoning package submittals and Building Permit package submittals. As of this reporting period 212 sites have been reviewed and determined by the FAA, 1 site is determined as an Obstruction, and 18 sites are still work in progress. 47 geotechnical/geological surveys and reports have been started with 158 remaining. 26 sites do not require the survey due to the use of an existing structure.

The primary Phase 2 effort for this period was unchanged. Procurement initiation activities (monopoles and generators) for the first 35 sites were completed during the prior reporting period.

The primary Phase 3 effort for this period was unchanged. Procurement initiation activities (Evolved Packet Core and site telecommunication equipment - eNodeB) for the first 35 sites and the Primary Core were completed during the prior reporting period.

**NOTICE OF PREPARATION OF A DRAFT ENVIRONMENTAL IMPACT REPORT –  
OUTREACH ACTIVITIES**

This matter is being presented as a discussion item. At the September 17, 2014 Board of Directors Special Meeting, Alternate Board Member Santome requested a summary report of outreach activities conducted in connection with the Notice of Preparation (NOP) of a Draft Environmental Impact Report for the proposed Land Mobile Radio ("LMR") system. Below you will find a list of outreach activities conducted in accordance with requirements of the California Code of Regulations, Title 14 (CEQA Guidelines) Sections 15082 and 15083. As summarized below, the Authority met, and in a number of instances, exceeded the requirements.

<b>CEQA Requirements / Recommendations for Notice of Preparation</b>	<b>LA-RICS Land Mobile Radio Notice of Preparation Outreach Activities</b>
CEQA Guidelines Section 15082 requires Notice of Preparation (NOP) be sent to responsible and trustee agencies and involved federal agencies using a method that provides record of delivery.	LA-RICS issued the NOP along with the Initial Study (IS) to trustee and responsible agencies (90 recipients), including every city, as well as Federal, State and Local agency with jurisdiction over a proposed Land Mobile Radio site. The proposed sites are within or adjacent to existing communication facilities to the maximum extent feasible. The project consist of installation of antennas on existing and new lattice towers and monopoles and supporting radio equipment in existing and new shelters. Sites may also include new emergency generators. New lattice towers would generally not exceed 180 feet in height. New monopoles would generally be 70 feet tall. Maximum construction footprints would not exceed 5,000 square feet at a site.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

# LOS ANGELES REGIONAL INTEROPERABLE COMMUNICATIONS SYSTEM AUTHORITY

2525 Corporate Place, Suite 200  
Monterey Park, California 91754  
(323) 881-8291

PATRICK J. MALLON  
EXECUTIVE DIRECTOR

October 2, 2014

Board of Directors  
Los Angeles Regional Interoperable Communications System ("LA-RICS") Authority  
(the "Authority")

Dear Directors:

## **APPROVE SITE ACCESS AGREEMENT WITH THE CITY OF COMPTON**

### **SUBJECT**

Board approval is requested to delegate authority to the Executive Director to finalize and execute one or more Site Access Agreement with the City of Compton.

### **RECOMMENDED ACTION:**

It is recommended that your Board:

1. Find that the approval and execution of the Site Access Agreements by the LA-RICS Authority does not result in any change to the PSBN project, or to the circumstances under which the project is being undertaken, and that the determination that these activities are exempt from review under the California Environmental Quality Act (CEQA) pursuant to Public Resources Code Section 21080.25, the statutory exemption adopted specifically for the LA-RICS project, remains unchanged.
2. Authorize the Executive Director to finalize and execute, substantially similar in form, one or more Site Access Agreements with the City of Compton. This Site Access Agreement is for the Long Term Evolution (LTE) broadband communication sites within its respective jurisdictions or under its control.

### **BACKGROUND**

At the May 16, 2013 Board meeting, your Board directed staff to begin negotiations with various jurisdictions for Site Access Agreements ("SAAs") for licensing the use of specific sites to the Authority for its use as a Land Mobile Radio ("LMR") and/or Long Term Evolution ("LTE") broadband communication site. With respect to LTE, discussions and negotiations with the City of Compton have resulted in the attached Site Access Agreement, Attachment A.

By entering into the Site Access Agreement with the City of Compton, the City will provide the Authority with a license to use a portion of their owned or leased property for use as a Long Term Evolution (LTE) broadband communications site(s). A list of the sites is attached as Attachment B. The licensed site(s) would include all necessary space and easements for access and utilities to construct, install, operate, maintain and repair an unmanned LTE communications facility. A brief summary of relevant provisions follow below:

<b>City of Compton</b>	
<b>Number of Sites</b>	2
<b>Term</b>	In Effect Until Terminated
<b>Lease Cost*</b>	Gratis
<b>Zoning Requirements</b>	Expedited process
<b>Ministerial Permitting Costs</b>	Waived

\*LA-RICS will, however, pay for any incremental cost in utilities at these sites resulting from its operations.

By granting approval for the execution of the SAAs with the City of Compton, it will assist in keeping the LTE project schedule on track, and make the goal of interoperable communications in Los Angeles County a reality.

**PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION**

The purpose of the recommended action is to provide the Executive Director authorization to execute the attached Site Access Agreement, with the City of Compton, for the implementation of the LA-RICS LTE installations.

**FISCAL IMPACT/FINANCING**

There is no fiscal impact.

**ENVIRONMENTAL DOCUMENTATION**

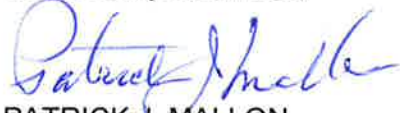

On March 6, 2014, the Board determined that design, construction, implementation, operation, and maintenance of the PSBN project (also known as the Long Term Evolution (LTE) Project) collectively and individually at the 229 sites where PSBN infrastructure will be constructed, installed, operated and maintained, including those sites identified on Attachment D, are exempt from review under the California Environmental Quality Act (CEQA) pursuant to Public Resources Code Section 21080.25, the statutory exemption adopted specifically for the LA-RICS project. Approval of the Site Acquisition Agreements does not result in any change to the PSBN project, or to the circumstances under which the project is being undertaken, and the determination that these activities are exempt from CEQA remains unchanged. As the CEQA Lead Agency, the LA-RICS Authority has determined that all of the LTE sites, including those covered by the attached Site Access Agreements, meet the statutory exemption. This determination is supported by substantial evidence in the custody of the Authority, which is incorporated in relevant part into the record of proceedings for these Site Access Agreements.

Upon the your approval of the recommended actions, a Notice of Exemption for the Site Access Agreements will be filed with the Registrar Recorder/County Clerk pursuant to Section 15062 of the State CEQA Guidelines.

**FACTS AND PROVISIONS/LEGAL REQUIREMENT**

The Authority's counsel has reviewed the recommended action.

Respectfully submitted,

PATRICK J. MALLON  
EXECUTIVE DIRECTOR

**WHEREAS**, Owner is a member of the LA-RICS Authority, which was established pursuant to a Joint Powers Agreement dated January 2009 ("JPA") for the purpose of coordinating governmental services to establish a wide-area interoperable public safety communications network commonly known as LA-RICS;

**WHEREAS**, Owner owns certain real property described on Exhibit A (Site List) hereto ("Real Property"); and

**WHEREAS**, Owner desires to permit use of a portion of the Real Property by the LA-RICS Authority for use as a Long Term Evolution broadband ("Broadband" or "LTE") communication site; and

**WHEREAS**, the parties hereto acknowledge that: (a) LA-RICS AUTHORITY has retained Motorola ("LMR Vendor") to design, construct, and perform services with respect to a regional interoperable LMR telecommunications system as a part of the LA-RICS; (b) the LA-RICS Authority has retained Motorola ("LTE Vendor") to design and construct a regional interoperable Broadband telecommunications system as a part of the LA-RICS; (c) the federal First Responder Network Authority may, or may not retain one or more vendors (collectively, the "First Net Parties"), to design and construct a national interoperable Broadband telecommunications system of which the LA-RICS may be a part; and (d) any of the LA-RICS Authority member agencies may assume the LA-RICS Authority's rights and obligations under this Agreement and/or may perform services with respect to this LA-RICS; and

**WHEREAS**, LA-RICS AUTHORITY is willing to accept and exercise the rights granted by this Agreement for use of a LTE site located on the Real Property in accordance with the terms and conditions prescribed herein.

**NOW, THEREFORE**, in consideration of the foregoing recitals, which are hereby deemed a contractual part hereof, and the mutual promises, covenants, and conditions set forth herein, the parties hereto agree as follows:

1. **LTE SITE; LICENSE**

1.01 Owner hereby licenses to the LA-RICS AUTHORITY and LA-RICS AUTHORITY hereby accepts from Owner on the terms and conditions set forth herein, the use of land within a portion of the Real Property, together with all necessary space and easements for access and utilities to install and operate an unmanned LTE communication facility, consisting of the parcels of land shown on Exhibit A (Site List) attached hereto and incorporated herein by this reference (collectively, the "LTE Site" and each, individually, a "LTE Site").

1.02 The LA-RICS AUTHORITY acknowledges its personal inspection of the LTE Site and the surrounding area and evaluation of the extent to which the physical condition thereof will affect its operations. The LA-RICS AUTHORITY accepts the LTE Site in its as-is condition with no duty to investigate, and Owner makes no warranty, express or implied, as to the suitability of the LTE Site or the Real Property for the LA-RICS AUTHORITY's use; its physical condition, including the condition and stability of the soils or groundwater on or under any of the Real Property; and the presence of pollutants or contaminants therein.

1.03 LA-RICS AUTHORITY, the LTE Vendor, and/or the First Net Parties may make or construct or cause to be made or constructed additions, alterations, repairs, replacements or other changes to the LTE Site at the LA-RICS AUTHORITY's expense in accordance with all of the terms and conditions of this Agreement.

1.04 LA-RICS AUTHORITY hereby acknowledges the title or other legal right of possession of the Owner or its successors in the Real Property and covenants and agrees never to assail, contest, or resist said title.

1.05 Ownership of all improvements constructed by the LA-RICS AUTHORITY upon each and every site comprising the LTE Site and all alterations, additions or betterments thereto shall remain with the LA-RICS AUTHORITY or other agencies as may be provided by any applicable LA-RICS grant requirements. The LA-RICS AUTHORITY may remove any of its own improvements to the Real Property at any time during the term of the Agreement, and Owner hereby waives any and all lien rights it may have in relation thereto, statutory or otherwise.

## 2. PURPOSE AND USE

2.01 The sole purpose of this Agreement is to allow the LA-RICS AUTHORITY to use a parcel of the land on the Real Property for the installation, operation, maintenance, and repair of a Broadband communication facility. The LA-RICS AUTHORITY (and/or its member agencies, the LTE Vendor, the First Net Parties and/or other agents): (a) shall have the right to construct, install, repair, remove, replace, maintain, and operate the LA-RICS AUTHORITY's LTE communications system, which typically consists of, without limitation, the infrastructure, shelters, equipment and related improvements listed on Exhibit B (Equipment List) attached hereto and incorporated herein by this reference (such LTE system and associated infrastructure, shelters, equipment and related improvements, collectively, the "LA-RICS Facility") and other related materials as may be deemed necessary by the LA-RICS AUTHORITY, and (b) shall be allowed access over, through and across each site comprising the Real Property for ingress to and egress from the applicable LTE Site 24 hours per day, 7 days per week without notice. Each LTE Site shall be used only for the purposes authorized by this Section 2.01, and such other purposes as are directly related thereto, and for no other purposes whatsoever (collectively the "Permitted Activities").

It is understood and agreed that LA-RICS AUTHORITY, by the acceptance of this Agreement and the grant of rights herein, and by LA-RICS AUTHORITY's use and occupancy of the LTE Site for the sole purpose set forth above and no other, has not acquired and will not acquire at any time in the future any property rights or interest in or to the LTE Site, the Real Property or any other part thereof, including in buildings and other structures, and LA-RICS AUTHORITY does not nor will it ever obtain any right or claim to the continued use of the LTE Site or any other part of the Real Property beyond those specifically given in and by this Agreement.

2.02 The LA-RICS AUTHORITY shall ensure that all usage of the LTE Site and/or the Real Property hereunder, including without limitation usage by the LTE Vendor, is in compliance with all terms and conditions of this Agreement.

2.03 Nothing contained in this Agreement shall be deemed or construed in any way to limit the Owner's authority to exercise any right or power concerning the utilization of the Real Property including without limitation the LTE Site; provided, however, that such Owner authority shall not include the exercise of any right or power that would interfere with the LA-RICS Facility.

## 3. APPROVALS/DESIGN REVIEW

The LA-RICS AUTHORITY shall furnish and submit to Owner copies of project plans and specifications (along with any other information reasonably requested by Owner) for the LTE Site at the 50%, 75%, and 100% stages of design development, for Owner's review and input. LA-RICS AUTHORITY agrees to discuss with Owner the

Owner's concerns, if any, regarding the proposed plans and to work in good faith to address such concerns prior to implementation of said plans.

Upon the LA-RICS AUTHORITY's approval of the final site plan for the LTE Site, such final site plan will be deemed incorporated herein by reference as Exhibit C (Site Plan). Owner and the LA-RICS AUTHORITY acknowledge that the LA-RICS AUTHORITY is a California joint powers authority whose members have specified, pursuant to Section 4.04 of its Joint Powers Agreement and Section 6509 of the California Government Code, that all common powers exercised by the LA-RICS AUTHORITY's Board of Directors shall be exercised in a manner consistent with, and subject to all the restrictions and limitations upon the exercise of such powers, as are applicable to the County of Los Angeles ("County") (i.e., the LA-RICS AUTHORITY has adopted the County's operating mode). Accordingly, Owner and the LA-RICS AUTHORITY agree that the LA-RICS AUTHORITY (i) will comply with the Owner's City Building Code requirements and (ii) will seek only those governmental approvals that would normally apply to the County, other than with respect to ministerial permits as described below. Notwithstanding the foregoing, the parties agree that their cooperation in addressing any concerns raised by the Owner is essential to the success of the LA-RICS project and that accordingly all such concerns will be taken into consideration throughout the LTE Site plan approval process, as described in this Section 3 (Approvals/Design Review and in Section 8 (Alterations).

Should ministerial permits be required, Owner shall expeditiously process such permits within its jurisdiction. To the extent there may be costs associated with Owner's review, such costs will be waived for LA-RICS AUTHORITY. The LA-RICS AUTHORITY may perform and obtain, at the LA-RICS AUTHORITY's sole cost and expense, soil borings, percolation tests, engineering reports, environmental investigations or other tests or reports on, over, and under each LTE Site to the extent necessary to proceed with design, construction, or for compliance with the California Environmental Quality Act and/or the National Environmental Policy Act, and/or to determine if the LA-RICS AUTHORITY's use of the LTE Site will be compatible with the LA-RICS AUTHORITY's engineering specifications and design and operational requirements. Owner shall work cooperatively and expeditiously with the LA-RICS AUTHORITY to complete review of any project plans and specifications, so as not to delay the design and construction of the LA-RICS Facility.

#### 4. **TERM**

The initial term ("Initial Term") of the Agreement shall commence upon full execution of this Agreement ("Commencement Date") and shall terminate upon written notice of termination (a) by LA-RICS AUTHORITY or (b) by Owner pursuant to Section 28 (Default) hereof.

5. **CONSIDERATION**

The consideration for the use granted herein shall be LA-RICS AUTHORITY's compliance with all of the terms and conditions of this Agreement.

6. **CONDITIONS PRECEDENT TO INSTALLATION OR ALTERATIONS OF EQUIPMENT**

Owner shall have the opportunity to review and provide input, if any, as to all project plans and specifications for the LA-RICS AUTHORITY's proposed alterations of the equipment comprising the LA-RICS Facility (not including "like-kind" replacements) after LA-RICS AUTHORITY's initial installation of the LA-RICS Facility on the LTE Site. In addition, Owner shall have the right to inspect said equipment and the LTE Site at any time during and after installation upon not less than 24 hours prior written notice to the LA-RICS AUTHORITY (except in cases of emergency pursuant to Section 14 hereof (Emergency Access) and, at LA-RICS AUTHORITY's option, with the right to require an LA-RICS AUTHORITY representative to accompany Owner during any such inspection of or access to a LTE Site. The LA-RICS AUTHORITY shall not commence installation of equipment or alteration of a LTE Site, or any portion thereof, until the Owner has reviewed the plans and specifications. Owner's review of the plans shall not release the LA-RICS AUTHORITY from the responsibility for, or the correction of, any errors, omissions or other mistakes that may be contained in the plans and specifications. The LA-RICS AUTHORITY shall be responsible for notifying Owner and all other relevant parties immediately upon discovery of such omissions and/or errors. The LA-RICS AUTHORITY shall not cause or permit any change of any equipment installed by the LA-RICS AUTHORITY on a LTE Site including power outputs or changes in the use of frequencies described in Exhibit B hereto (Equipment List), but not including "like-kind" replacements, except after Owner has been provided an opportunity to review and provide input, if any, into such plans and specifications.

Prior to the commencement of construction or installation of equipment or alteration of the LTE Site, and at all times thereafter, LA-RICS AUTHORITY shall (a) procure, maintain and comply with all permits, licenses, variances, authorizations and approvals required under applicable laws, rules and regulations of the jurisdiction in which the Site is located and any other governmental and quasi-governmental authorities having appropriate jurisdiction; ; and, (c) upon request, provide to the Owner copies of all permits, licenses, variances, authorizations and approvals obtained pursuant to this section and all insurance required hereunder. LA-RICS AUTHORITY shall, upon 24 hours prior notice, permit the Owner, its employees, agents or contractors to inspect the LTE Site while in the course of construction or installation to conduct any inspection, testing and approval of work. No construction materials or debris shall be stored in or on the Real Property without the prior written consent of the Owner. Upon completion of any construction or installation work, LA-RICS AUTHORITY shall entirely remove all material and debris related to such construction or installation from the Real Property.

## 7. INSTALLATION

7.01 LA-RICS AUTHORITY shall install the LA-RICS Facility at its own expense and risk as approved by Owner in accordance with the terms hereof, and such installation shall not cause radio frequency interference with equipment, transmission or reception (operated currently or in the future) by the Owner. LA-RICS AUTHORITY and/or its agent shall install interference protection devices such as isolators, cavities, circulators, or combiners as required or recommended by accepted industry practices. Each component of the LA-RICS Facility shall be clearly identified with LA-RICS AUTHORITY's and, as applicable, member agency, LTE Vendor, and/or First Net Party's name, address, telephone number, Federal Communications Commission ("FCC") Agreement and frequencies in use. Such identification shall be attached to each component of the LA-RICS Facility in plain view.

7.02 LA-RICS AUTHORITY agrees that Owner may grant the use of any unused portion of the Real Property to any third party for the purpose of installing communications transmitting equipment, so long as such uses do not conflict or interfere with LA-RICS AUTHORITY's operations as provided for pursuant to this Agreement. Any third party granted rights by the Owner shall be required to comply with all applicable noninterference rules of the FCC.

7.03 Owner reserves the right, at its expense, to install on the Real Property, including without limitation within the LTE Site, its own communications shelter, telecommunication equipment, and appropriate tower space for telecommunications and/or microwave (collectively, the "Owner Facilities") so long as the installation of said Owner Facilities does not interfere with LA-RICS AUTHORITY's operations. LA-RICS AUTHORITY and Owner agree to make commercially reasonable efforts to resolve any radio frequency interference issues with equipment, transmission or reception caused by the installation of the Owner Facilities.

7.04 LA-RICS AUTHORITY accepts the LTE Site in an "as is" condition as of the date of full execution of this Agreement. LA-RICS AUTHORITY shall have the right to finance and construct approved equipment and related improvements on the LTE Site at LA-RICS AUTHORITY' sole cost and expense, except as may be provided otherwise by other agreements. Following the construction and installation of LA-RICS AUTHORITY's infrastructure, shelter, equipment, and related improvements, LA-RICS AUTHORITY may thereafter, at its sole cost and expense, perform construction, maintenance, repairs, additions to, and replacements of its equipment as necessary and appropriate for its ongoing business and has the right to do all work necessary to prepare, modify and maintain the LTE Site to accommodate LA-RICS AUTHORITY's infrastructure, shelter, equipment, and related improvements and as required for LA-RICS AUTHORITY's operations of the LA-RICS Facility at the LTE Site, including any structural upgrades required to accommodate LA-RICS AUTHORITY's infrastructure, shelter, equipment, and related improvements on the LTE Site. Except in cases of emergency, LA-RICS AUTHORITY shall provide Owner with at least 24-hour advance notification of its plans to enter upon the Owner's Real

Property to perform construction, maintenance, repairs, additions to, and replacements of its equipment, including any structural upgrades required to accommodate LA-RICS AUTHORITY's infrastructure, shelter, equipment, and related improvements on the LTE Site.

7.05 Upon completion of the installation of the equipment comprising the LA-RICS Facility at the LTE Site, LA-RICS AUTHORITY shall provide Owner with as-built drawings of the LA-RICS Facility ("As-Builts"). Such As-Builts shall include the location of any of LA-RICS AUTHORITY shelters, cabinets, grounding rings, cables, and utility lines associated with LA-RICS AUTHORITY use of the LTE Site in CAD and PDF formats. Upon receipt of the As-Builts by Owner, the As-Builts shall be deemed incorporated herein by reference as updates to Exhibit C (Site Plan). In the event that LA-RICS AUTHORITY fails to deliver the As-Builts as required by this section within ten business days of receipt of written notice, Owner may cause such As-Builts to be prepared on behalf of LA-RICS AUTHORITY and Owner shall assess a fee for such As-Builts, the cost of which shall become immediately due and payable to Owner upon invoice accompanied by supporting documentation of such fee. Owner shall be responsible for completion of and costs associated with As-Builts resulting from any modifications required by Owner.

#### 8. ALTERATIONS

LA-RICS AUTHORITY shall make no renovations, alterations or improvements to the LTE Site or the Real Property other than to install, maintain, replace and operate the LA-RICS Facility in accordance with the documentation attached hereto as Exhibits A (Site List), B (Equipment List), and C (Site Plan) and/or as permitted elsewhere herein, without providing prior written notice to Owner, provided that such renovations, alterations, or improvements shall be consistent with the authorized use set forth in Section ~~2.0~~ 2.02 hereof. Notwithstanding the foregoing, however, it is understood and agreed that LA-RICS AUTHORITY shall have the right to: (a) make repairs and replacements of "like-kind" infrastructure, shelters, equipment, and/or related improvements without providing notice to the Owner, and (b) perform any alterations or modifications that may be required pursuant to the Spectrum Manager Lease Agreement between LA-RICS AUTHORITY and the First Net Parties dated July 1, 2013 (the "Spectrum Lease Agreement") or that may be required as a result of FCC rules or regulations, after providing notice to the Owner. LA-RICS AUTHORITY agrees to submit to the Owner, for review, all plans and specifications, working drawings, and other information reasonably required by the Owner covering proposed alterations by LA-RICS AUTHORITY. All work to be done by LA-RICS AUTHORITY shall be performed in accordance with the plans provided to Owner and shall, where required, be subject to inspection by Owner's City Building Inspector.

#### 9. MAINTENANCE

Owner shall be responsible for maintenance of the Real Property, including the LTE Site, and such maintenance responsibility shall include general upkeep,

landscaping, lawn-mowing, and related maintenance activities. The LTE Site shall be kept neat and clean by LA-RICS AUTHORITY and ready for normal use by Owner and other users. Should LA-RICS AUTHORITY fail to accomplish this, following 30 days written notice from Owner, Owner may perform the work and LA-RICS AUTHORITY shall pay the cost thereof upon written demand by Owner.

LA-RICS AUTHORITY shall be responsible for the timely repair of all damage to the LTE Site or the Real Property caused by the negligence or willful misconduct of LA-RICS AUTHORITY, its employees, agents or business vendors, including without limitation the LTE Vendor. Should LA-RICS AUTHORITY fail to promptly make such repairs after 30 days written notice from Owner, Owner may have repairs made and LA-RICS AUTHORITY shall pay the cost thereof upon written demand by Owner.

10. **CONSTRUCTION STANDARDS**

Installation and maintenance of LA-RICS AUTHORITY's equipment including without limitation the LA-RICS Facility shall be performed in a neat and workmanlike manner and shall at all times comply in all respects to the statutes, laws, ordinances and regulations of any governmental authority having jurisdiction which are applicable to the installation, construction, operation and maintenance of LA-RICS AUTHORITY's equipment, including but not limited to the Owner's City Building Code.

LA-RICS AUTHORITY shall pay, or cause to be paid, all costs for work to be done by it, on the LTE Site, and for all materials furnished for or in connection with such work. If any lien is filed against the Real Property and/or LTE Site, LA-RICS AUTHORITY shall cause the lien to be discharged or recorded within 10 days after LA-RICS AUTHORITY receives written notice that such a lien has been filed. LA-RICS AUTHORITY shall indemnify, defend and hold the Owner harmless from any and all liability, loss, damage, costs, attorneys' fees and all other expenses on account of claims of liens or laborers or material men or others for work performed or materials or supplies furnished for LA-RICS AUTHORITY or persons claiming under LA-RICS AUTHORITY.

LA-RICS AUTHORITY shall remove any debris to the extent resulting from maintenance, operation and construction on the LTE Site by LA-RICS AUTHORITY, its agents or contractors (including without limitation the LTE Vendor). In the event that LA-RICS AUTHORITY fails to remove such debris from the LTE Site, Owner shall provide written notice to LA-RICS AUTHORITY and allow LA-RICS AUTHORITY ten business days after receipt of notice to remove such debris. After the expiration of such ten-business day period, Owner shall cause such debris to be removed and invoice LA-RICS AUTHORITY for the reasonable costs of said removal.

(d) Assume the risk of loss, damage or destruction to the LA-RICS Facility and any and all fixtures and personal property belonging to LA-RICS AUTHORITY that are installed or placed within the LTE Site, unless such loss, damage or destruction was caused by the negligent or willful act or omission of the Owner, its agents, employees or contractors.

## 12. **RELOCATION**

12.01 Owner shall have the right to request relocation of the LA-RICS Facility or any portion thereof on no more than one occasion during the term hereof to another location on the Real Property ("Alternate Site"), provided:

(a) the Alternate Site: (i) is substantially similar to LA-RICS AUTHORITY's current LTE Site in size, (ii) is compatible with LA-RICS AUTHORITY's use pursuant to Section 2 hereof, and (iii) does not interfere with any portion of the LA-RICS Facility or the LA-RICS system or equipment;

(b) Except when relocation is necessitated through no act, fault or request of the Owner (e.g. acts of God, war, fire, earthquake, flood, calamity, terrorism, riot, etc.), Owner shall pay all costs incurred by LA-RICS AUTHORITY for relocation of LA-RICS AUTHORITY's equipment from the LTE Site to the Alternate Site and any improvement of the Alternate Site to make it substantially similar to the LTE Site, including all costs incurred to obtain all of the certificates, permits, and other approvals that may be required by any agency having jurisdiction, including costs required to comply with CEQA and the National Environmental Policy Act (NEPA), as applicable, prior to any activity at an Alternate Site that would constitute a "project" as that term is defined in Title 14, Section 15378 of the California Code of Regulations, as well as any soil boring tests needed to permit LA-RICS AUTHORITY's use of the Alternate Site;

(c) Owner shall give LA-RICS AUTHORITY at least six (6) months written notice before requiring relocation; and

(d) LA-RICS AUTHORITY's use pursuant hereto will not be interrupted and LA-RICS AUTHORITY shall be allowed, if necessary, to place temporary equipment on the Real Property during the relocation.

12.02 LA-RICS AUTHORITY shall have the right to request relocation of the LA-RICS Facility or any portion thereof to an Alternate Site on the Real Property pursuant to LA-RICS AUTHORITY's obligations under the Spectrum Lease Agreement, provided that:

(a) the Alternate Site: (i) is substantially similar to LA-RICS AUTHORITY's current LTE Site in size, (ii) is compatible with LA-RICS AUTHORITY's use pursuant to Section 2 hereof, and (iii) does not interfere with any portion of the LA-RICS Facility or the LA-RICS system or equipment;

(b) LA-RICS AUTHORITY shall pay all costs relating to relocation of LA-RICS AUTHORITY's equipment from the LTE Site to the Alternate Site and any improvement of the Alternate Site to make it substantially similar to the LTE Site, including all costs incurred to obtain all of the certificates, permits, and other approvals that may be required by any agency having jurisdiction, including costs required to comply with CEQA and the National Environmental Policy Act (NEPA), as applicable, prior to any activity at an Alternate Site that would constitute a "project" as that term is defined in Title 14, Section 15378 of the California Code of Regulations, as well as any soil boring tests needed to permit LA-RICS AUTHORITY's use of the Alternate Site;

(c) LA-RICS AUTHORITY shall give Owner at least six (6) months written notice of the requested relocation;

(d) LA-RICS AUTHORITY shall, at its sole cost and expense restore the initial Site in as good order and condition as when first occupied by LA-RICS AUTHORITY, reasonable wear and tear excepted. If LA-RICS AUTHORITY fails to restore the initial Site as required herein, the Owner may, at its option, upon giving of 30 days prior written notice, restore the initial LTE Site, and LA-RICS AUTHORITY shall reimburse the Owner for all reasonable cost and expense incurred in the restoration within 30 days after receipt of an invoice for such cost and expense.

### 13. **ACCESS TO LTE SITE**

13.01 Owner hereby grants to the LA-RICS AUTHORITY, its member agencies, the LTE Vendor, the First Net Parties, and other agents a nonexclusive right to use, at its sole risk, during the term of this Agreement, the access which serves the LTE Site ("Access"). The LA-RICS AUTHORITY, on behalf of itself and its member agencies, the LTE Vendor, and the First Net Parties, acknowledge and accept the present condition of the Access on an "as is" basis. The LA-RICS AUTHORITY shall provide Owner with notice of all of its representatives or agents who are authorized to access the LTE Site pursuant to this Section.

13.02 LA-RICS AUTHORITY acknowledges and agrees that occasions may arise requiring the LA-RICS AUTHORITY to share in the cost of cleaning up of mud-slide debris and repairing the Access to its original accessible condition after a storm or heavy rainfall. LA-RICS AUTHORITY hereby agrees to pay its reasonable proportionate share of such clean-up repair costs within thirty (30) days of receipt of an invoice from Owner, and acknowledges and agrees that the details of any such clean-up or repair and associated cost may be disclosed to LA-RICS AUTHORITY by Owner upon at least thirty (30) days notice. Notwithstanding the foregoing, the LA-RICS AUTHORITY's financial burden pursuant to this Section shall not exceed five thousand dollars (\$5,000) per incident.

14. **EMERGENCY ACCESS BY OWNER**

The Owner and its authorized agents may access the LTE Site at any time for the purpose of inspection and/or for making emergency improvements or repairs to the LTE Site or to interrupt or terminate LA-RICS AUTHORITY's transmission(s) from the LTE Site should LA-RICS AUTHORITY be unable or unwilling to respond to Owner's request to take immediate action to correct any deficiency which threatens Owner's operation on the LTE Site, provided that Owner shall endeavor to provide a 24-hour prior notice to LA-RICS AUTHORITY and shall access the LTE Site in the presence, if possible, of an LA-RICS AUTHORITY representative, if provided by LA-RICS AUTHORITY. Notwithstanding the foregoing, Owner shall not be required to provide notice to LA-RICS AUTHORITY prior to entering the LTE Site due to an emergency; provided, however, that under no circumstance shall the Owner access LA-RICS AUTHORITY's equipment cabinets. Owner shall use its best efforts to minimize any inconvenience or disturbance to LA-RICS AUTHORITY when entering the LTE Site. LA-RICS AUTHORITY shall reimburse Owner within thirty (30) days of receipt of Owner's written request for Owner's actual costs to correct any deficiency that is corrected by Owner pursuant to this Section.

15. **RADIO FREQUENCY EMISSIONS/INTERFERENCE**

15.01 **No Interference.** LA-RICS AUTHORITY shall not use the LTE Site in any way which causes radio frequency ("RF") interference in excess of levels permitted by the FCC or otherwise interferes with the use of the Property by Owner or Owner's agents, invitees or other licensees or users who may occupy portions of the Real Property at the time this Agreement is entered into. LA-RICS AUTHORITY shall be responsible for electromagnetic compatibility of LA-RICS AUTHORITY's equipment with existing and future equipment at the Real Property.

15.02 **Interference With Public Safety Systems.** In the event of any interference with Owner's Police or Fire Department, CWIRS, Paramedic or LANet systems, or any future public safety-related systems, which is caused by LA-RICS AUTHORITY's equipment or operations, LA-RICS AUTHORITY shall be immediately notified by Owner of such interference. Following such notification, the parties will cooperatively discuss and reach agreement on how such interference will be resolved.

**15.03 Interference With Non-Public Safety Systems.** In the event LA-RICS AUTHORITY's operations or equipment causes interference with non-public safety-related systems of Owner or any other duly authorized occupant of the Real Property, written notice of such interference shall be provided to LA-RICS AUTHORITY. Owner agrees that Owner and/or any other occupants of the Real Property who currently have or in the future take possession of the Real Property will be permitted to install only such radio equipment that is of the type and frequency which will not cause measurable interference with the existing equipment of LA-RICS AUTHORITY.

**15.04 Interference During Emergency.** If any measurable interference caused by LA-RICS AUTHORITY's equipment with Owner's electronic equipment during an emergency incident occurs, the LA-RICS AUTHORITY will immediately cease operation, transmission or further use of LA-RICS AUTHORITY's equipment until such time as the emergency incident or interference has ended but LA-RICS AUTHORITY shall be permitted to power up its equipment for intermittent testing with notice.

**15.05 Compliance With Law.** LA-RICS AUTHORITY is aware of its obligation to comply with all applicable rules and regulations of the FCC pertaining to RF emissions standards, as well as applicable rules and/or regulations of any other federal or state agency (including without limitation the Occupational Safety and Health Administration ("OSHA") having jurisdiction over the installation, operation, maintenance and/or working conditions involving RF emissions and/or safety and work standards performed on or near communications towers and antenna-licensed premises. LA-RICS AUTHORITY agrees to be solely responsible for compliance with all applicable FCC and other governmental requirements with respect to installation, operation, and maintenance of its own equipment and for repairs to its own equipment at the LTE Site. LA-RICS AUTHORITY will immediately remedy its operations to comply with such applicable laws, rules and regulations as they apply to its operations, individually and in the aggregate, with all applicable FCC and other applicable governmental RF emissions standards, but shall only be liable for any violations of such applicable standards to the extent arising solely from LA-RICS AUTHORITY's equipment alone and not in combination with others. Where LA-RICS AUTHORITY's equipment, in combination with other, exceed or violates such standards, LA-RICS AUTHORITY shall reasonably cooperate with Owner and with other relevant parties to mitigate such violations in a timely manner.

## 16. **UTILITIES**

LA-RICS AUTHORITY shall, at its sole cost and expense, cause the installation of any utility service line required by or for the conduct of the Permitted Activities, and shall be responsible for the payment of all utilities necessary for the operation of the LA-RICS Facility on the LTE Site. If such installation is not feasible, as determined by Owner, LA-RICS AUTHORITY acknowledges and agrees that LA-RICS AUTHORITY nonetheless shall be responsible for any all costs of utilities used by LA-RICS

AUTHORITY, which costs will be invoiced by Owner and paid by LA-RICS AUTHORITY within thirty (30) days of its receipt of such invoice.

PATRICK J. MALLON  
EXECUTIVE DIRECTOR

October 2, 2014

Board of Directors  
Los Angeles Regional Interoperable Communications System Authority (the "Authority")

Dear Directors:

### **ACCEPT 2011 & 2012 URBAN AREAS SECURITY INITIATIVE (UASI) FUNDS**

#### **SUBJECT**

Board approval is requested to accept the LA-RICS Project's allocation of the 2011 & 2012 Urban Areas Security Initiative (UASI) funds.

#### **IT IS RECOMMENDED THAT YOUR BOARD:**

1. Accept \$18,227,386 in grant funds from the Fiscal Year 2011 UASI funds as distributed through the California Office of Emergency Services (CalOES); and
2. Accept \$18,263,579 in grant funds from the Fiscal Year 2012 UASI funds as distributed through the California Office of Emergency Services (CalOES); and
3. Authorize the Executive Director to execute the 2011 & 2012 UASI Sub-recipient Agreements, substantially similar to the attached from 2010, between the City of Los Angeles and the Authority.

#### **PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION**

The Board's acceptance of grant funds and authorization of the Executive Director to execute the Sub-recipient Agreements will allow the Authority to request reimbursement for approved project expenditures. Project expenditures for the UASI '11 & '12 grants include Land Mobile Radio project management, environmental work, System design, construction and equipment purchase.

#### **FISCAL IMPACT/FINANCING**

These grants are fully funded by the Department of Homeland Security through CalOES. There is no matching fund requirement.

**AGENDA ITEM 7**

**FACTS AND PROVISIONS/LEGAL REQUIREMENT**

The Authority's counsel has reviewed the recommended actions.

**AGREEMENTS/CONTRACTING**

The recommended actions will authorize the Executive Director to execute the Sub-Recipient Agreements with the City of Los Angeles. The City of Los Angeles is the administrator of the UASI '11 & '12 grants, and has advised Authority staff the Sub-Recipient Agreement is being finalized. It is expected that the Sub-Recipient Agreement for the UASI '11 & '12 will not differ materially from the agreement for the UASI '10 grant.

Respectfully submitted,

PATRICK J. MALLON

## INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this document, the prospective recipient of Federal assistance funds is providing the certification as set out below.
2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective recipient of Federal assistance funds knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
3. The prospective recipient of Federal assistance funds shall provide immediate written notice to the person to which this agreement is entered, if at any time the prospective recipient of Federal assistance funds learns that its certification was erroneous, when submitted or has become erroneous by reason of changed circumstances.
4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549.
5. The prospective recipient of Federal assistance funds agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
6. The prospective recipient of Federal assistance funds further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Procurement or Non-Procurement Programs.
8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
9. Except for transactions authorized under Paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

Funding Restrictions

## E. Funding Restrictions

DHS grant funds may only be used for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity.

Pre-award costs are allowable only with the written consent of DHS and if they are included in the award agreement.

The applicable SAAs will be responsible for administration of the FY 2010 HSGP. In administering the program, the SAA must work with the eligible applicants to comply with the following general requirements:

- 1. HSGP Priorities Threshold.** As noted before, FY 2010 HSGP applies to all capabilities with an emphasis on the eight National Priorities.
- 2. Law Enforcement Terrorism Prevention.** Per the 9/11 Act, States are required to ensure that at least 25 percent of SHSP appropriated funds and 25 percent of UASI appropriated funds are dedicated towards law enforcement terrorism prevention-oriented planning, organization, training, exercise, and equipment activities. This requirement does not include award funds from OPSG, MMRS, and CCP.
- 3. Management and Administration (M&A) Limits.** A maximum of up to five percent (5%) of HSGP funds (exclusive of OPSG) awarded may be retained by the State, and any funds retained are to be used solely for management and administrative purposes associated with the HSGP award. States may pass through a portion of the State M&A allocation to local subgrantees to support local management and administration activities; the overall M&A amount may not equal more than five percent (5%) of HSGP funds (exclusive of OPSG). ***No M&A funds may be used to support the FY 2010 OPSG Program.***
- 4. Allowable Costs.** A crosswalk of allowable costs across the HSGP programs can be found in Part VIII of this Guidance package, along with additional detail on planning, organization, equipment, training, and exercises costs. The following pages outline global allowable costs guidance applicable to all programs included in the HSGP.

Allowable Investments made in support of the HSGP Priorities as well as other capability-enhancing projects must fall into the categories of planning, organization, equipment, training, or exercises. Additional detail about each of these allowable expense categories, as well as sections on additional activities including explicitly unallowable costs, is provided. In general, grantees should consult their FEMA

Headquarters Program Analyst (for SHSP, UASI, or OPSG questions) or FEMA Regional Program Analyst (for MMRS or CCP questions) prior to making any Investment that does not clearly meet the allowable expense criteria established by the Guidance.

***Planning Activities (SHSP, UASI, OPSG, MMRS, CCP)***

---

States and Urban Areas may use FY 2010 HSGP funds for planning efforts that enable them to prioritize needs, build capabilities, update preparedness strategies, allocate resources, and deliver preparedness programs across disciplines (e.g., tribal governments, law enforcement, fire, EMS, health care systems, public health, behavioral health, public works, rural water associations, agriculture, and information technology) and levels of government. States and Urban Areas are further encouraged to include disciplines responsible for the health, safety, education, and care of infants and children and those responsible for integrating the accessibility and functional needs of children and adults with disabilities. Planning activities should focus on the four homeland security mission areas of prevention, protection, response, and recovery. HSGP funds should also be leveraged to integrate specialized programs, such as the Regional Catastrophic Preparedness Grant Program, into the overall framework at the State and Urban Area level. All jurisdictions are encouraged to work through Citizen Corps Councils, nongovernmental entities, and the general public in planning activities.<sup>4</sup> Grantees are encouraged to use the *Comprehensive Preparedness Guide 101, Producing Emergency Plans: A Guide for All-Hazard Operations Planning for State, Territorial, Local and Tribal Governments* in order to develop robust and effective plans.

***Organizational Activities (SHSP and UASI only)***

---

Section 2008 of the *Homeland Security Act of 2002*, as amended by the 9/11 Act, includes the following allowable activities:

- Responding to an increase in the threat level under the Homeland Security Advisory System, or needs resulting from a National Special Security Event
- Establishing, enhancing, and staffing State and Major Urban Area fusion centers
- Paying salaries and benefits for personnel to serve as qualified intelligence analysts

States and Urban Areas must justify proposed expenditures of SHSP or UASI funds to support organization activities within their IJ submission by using historical data or other analysis.<sup>5</sup> All States are allowed to utilize up to 50 percent of their FY 2010 SHSP funding and all Urban Areas are allowed up to 50 percent of their FY 2010 UASI funding

---

<sup>4</sup> Nongovernmental entities include the private sector, private nonprofits, faith-based, community, volunteer, and other nongovernmental organizations.

<sup>5</sup> The effectiveness of a request for the use of funds for allowable organizational costs will be judged on the Investment Justification's ability to illustrate the need for such resources to effectively achieve a capability that will have a meaningful impact in the reduction of risk.

for organizational activities.<sup>6</sup> At the request of a recipient of a grant, the Administrator may grant a waiver of the limitation noted above (50 percent).

- **Intelligence Analysts** – Per the *Personnel Reimbursement for Intelligence Cooperation and Enhancement (PRICE) of Homeland Security Act* (Public Law 110-412), SHSP and UASI funds may be used to hire new staff and/or contractor positions to serve as intelligence analysts to enable information/intelligence sharing capabilities, as well as support existing intelligence analysts previously covered by SHSP or UASI funding. In order to be hired as an intelligence analyst, staff and/or contractor personnel must meet at least one of the following criteria:
  - Successfully complete training to ensure baseline proficiency in *intelligence analysis and production* within six months of being hired; and/or,
  - Previously served as an intelligence analyst for a minimum of two years either in a Federal intelligence agency, the military, or State and/or local law enforcement intelligence unit

All intelligence analyst training should be in accordance with the Global Justice Information Sharing Initiative's (Global) *Minimum Criminal Intelligence Training Standards for Law Enforcement and Other Criminal Justice Agencies in the United States*, which outlines the minimum categories of training needed for intelligence analysts. These include subject-matter expertise, analytic methodologies, customer-service ethics, information handling and processing skills, critical thinking skills, computer literacy, and objectivity and intellectual honesty. A certificate of completion of such training must be on file with the SAA and must be made available to FEMA Program Analysts upon request.

- **Overtime Costs** – Overtime costs are allowable for personnel to participate in information, investigative, and intelligence sharing activities specifically related to homeland security and specifically requested by a Federal agency. Allowable costs are limited to overtime associated with Federally requested participation in eligible fusion activities including anti-terrorism task forces, Joint Terrorism Task Forces (JTTFs), Area Maritime Security Committees (as required by the *Maritime Transportation Security Act of 2002*), DHS Border Enforcement Security Task Forces, and Integrated Border Enforcement Teams. Grant funding can only be used in proportion to the Federal man-hour estimate, and only after funding for these activities from other Federal sources (i.e. FBI JTTF payments to State and local agencies) has been exhausted. Under no circumstances should DHS grant funding be used to pay for costs already supported by funding from another Federal source.

---

<sup>6</sup> Note: Both organizational costs (e.g., intelligence analysts, operational overtime), planning, equipment, training, and exercise personnel costs are applied towards the 50 percent personnel cap.

- **Operational Overtime Costs** – In support of efforts to enhance capabilities for detecting, deterring, disrupting, and preventing acts of terrorism, operational overtime costs are allowable for increased security measures at critical infrastructure sites. FY 2010 SHSP or UASI funds for organizational costs may be used to support select operational expenses associated with increased security measures at critical infrastructure sites in the following authorized categories:
  - Backfill and overtime expenses (as defined in this Guidance) for staffing State or Major Urban Area fusion centers
  - Hiring of contracted security for critical infrastructure sites
  - Public safety overtime (as defined in this Guidance)
  - Title 32 or State Active Duty National Guard deployments to protect critical infrastructure sites, including all resources that are part of the standard National Guard deployment package (Note: Consumable costs, such as fuel expenses, are not allowed except as part of the standard National Guard deployment package)
  - Increased border security activities in coordination with CBP, as outlined in Information Bulletin #135

FY 2010 SHSP or UASI funds may only be spent for operational overtime costs upon prior approval provided in writing by the FEMA Administrator.

Note: States with UASI jurisdictions can use funds retained at the State level to reimburse eligible operational overtime expenses incurred by the State (per the above guidance limitations and up to a maximum of 50 percent of the State share of the UASI grant). Any UASI funds retained by the State must be used in **direct** support of the Urban Area. States must provide documentation to the UAWG and FEMA upon request demonstrating how any UASI funds retained by the State would directly support the Urban Area.

#### **Equipment Activities (SHSP, UASI, MMRS, CCP)**

The 21 allowable prevention, protection, response, and recovery equipment categories and equipment standards for FY 2010 HSGP are listed on the web-based version of the Authorized Equipment List (AEL) on the Responder Knowledge Base (RKB), at <https://www.rkb.us>. Unless otherwise stated, equipment must meet all mandatory regulatory and/or DHS-adopted standards to be eligible for purchase using these funds. In addition, agencies will be responsible for obtaining and maintaining all necessary certifications and licenses for the requested equipment.

States that are using FY 2010 HSGP funds to purchase Interoperable Communications Equipment (Category 6) must consult SAFECOM's coordinated grant guidance, which outlines standards and equipment information to enhance interoperable communications. This guidance can be found at <http://www.safecomprogram.gov>. Additionally, grantees are required to coordinate with other State and local partners in

integrating their interoperable communications plans and projects as outlined in each State's Statewide Communication Interoperability Plan.

#### ***Training Activities (SHSP, UASI, MMRS, CCP)***

---

States, territories, and Urban Areas may use HSGP funds to develop a homeland security training program. Allowable training-related costs under HSGP include the establishment, support, conduct, and attendance of training specifically identified under the SHSP, UASI, MMRS, and CCP grant programs and/or in conjunction with emergency preparedness training by other Federal agencies (e.g., HHS, DOT). Allowable training topics include, but are not limited to, CBRNE terrorism, cyber/agriculture/food security, intelligence gathering and analysis, NIMS related training, citizen and community preparedness, interoperable and emergency communications, and training for volunteers, infants and children and individuals with disabilities in disasters, pediatric medical surge, and evacuation and sheltering with particular emphasis on children, keeping children with parents or guardians, addressing needs of unaccompanied minors, and integrating the accessibility and functional needs of children and adults with disabilities (see *Comprehensive Preparedness Guide 301 [CPG-301]: Interim Emergency Management Planning Guide for Special Needs Populations* and other resources for additional information).

Training conducted using HSGP funds should address a performance gap identified through an After Action Report/Improvement Plan (AAR/IP) or contribute to building a capability that will be evaluated through an exercise. Exercises should be used to provide the opportunity to demonstrate and validate skills learned in training, as well as to identify training gaps. Any training or training gaps should be identified in the AAR/IP and addressed in the State or Urban Area training cycle. All training and exercises conducted with HSGP funds should support the development and testing of the jurisdiction's EOP or specific annexes, where applicable.

#### ***Exercise Activities (SHSP, UASI, MMRS, CCP)***

---

Exercises conducted with FEMA support must be managed and executed in accordance with the Homeland Security Exercise and Evaluation Program (HSEEP). HSEEP Guidance for exercise design, development, conduct, evaluation, and improvement planning is located at <https://hseep.dhs.gov>. The HSEEP Library provides sample exercise materials and templates.

All exercises using HSGP funding must be NIMS compliant. More information is available online at the NIMS Integration Center, <http://www.fema.gov/emergency/nims/index.shtm>.

All Urban Areas are required to develop a Multi-Year Training and Exercise Plan (TEP) and submit to the FEMA Grants and Preparedness Community of Interest (COI) on the Homeland Security Information Network (HSIN). Further, Urban Areas are encouraged to develop a Multi-Year Plan and Schedule that takes into consideration anticipated training needs of the Urban Area for at least the immediate year, with exercises being timed to provide responders the opportunity to utilize training received. Further

guidance concerning the Training and Exercise Plan and the Training and Exercise Plan Workshop can be found at <https://hseep.dhs.gov>.

Where applicable, the Training and Exercise Plans should include training and exercises that support specialized programs, such as the Regional Catastrophic Preparedness Grant Program.

Urban Areas are eligible for Regional Exercise Support Program (RESP) funds but must do so in conjunction with the SAA.

States and Urban Areas are encouraged to exercise their capabilities with regard to infants and children across all aspects of response and recovery, including pediatric medical surge capabilities and integrating the accessibility and functional needs of children and adults with disabilities.

#### ***Personnel Activities (SHSP, UASI, MMRS, CCP)***

Personnel hiring, overtime, and backfill expenses are permitted under this grant in order to perform allowable FY 2010 HSGP planning, training, exercise, and equipment activities.

- A personnel cost cap of up to 50 percent of total **SHSP and UASI** program funds may be used for personnel and personnel-related activities as directed by the *Personnel Reimbursement for Intelligence Cooperation and Enhancement (PRICE) of Homeland Security Act* (Public Law 110-412). Grantees who wish to seek a waiver from the personnel cost cap must provide documentation explaining why the cap is unacceptable; waiver requests will be considered only under extreme circumstances. In general, the use of SHSP and UASI funding to pay for staff and/or contractor regular time or overtime/backfill is considered a personnel cost. **Neither MMRS nor CCP have a personnel cost cap.** Activities that are considered “personnel” and “personnel-related,” and therefore count against the personnel cost cap of 50 percent, include, but are not limited to:
  - Operational overtime
  - Overtime/backfill to participate in approved training or exercise deliveries
  - Salaries and personnel costs of intelligence analysts
  - Overtime to participate in intelligence sharing activities
  - Salaries and personnel costs of planners, equipment managers, exercise coordinators, and/or training coordinators
  - Salaries and personnel costs under the M&A category
  - Contractor costs associated with performing the above activities

These activities are also subject to the funding and eligibility requirements detailed under the allowable cost categories. For further details SAAs should contact their FEMA Headquarters Program Analyst.

FY 2010 HSGP funds may not be used to support the hiring of any personnel for the purposes of fulfilling traditional public health and safety duties or to supplant traditional public health and safety positions and responsibilities.

The following are definitions for the terms as used in this grant guidance:

- **Hiring** – State and local entities may use grant funding to cover the salary of newly hired personnel who are exclusively undertaking allowable FEMA program activities as specified in this guidance. This may not include new personnel who are hired to fulfill any non-FEMA program activities under any circumstances. Hiring will always result in a net increase of Full Time Equivalent (FTE) employees.
- **Overtime** – These expenses are limited to the additional costs which result from personnel working over and above 40 hours of weekly work time as a direct result of their performance of FEMA-approved activities specified in this guidance. Overtime associated with any other activity is not eligible.
- **Backfill-related Overtime** – Also called “Overtime as Backfill,” these expenses are limited to overtime costs which result from personnel who are working overtime (as identified above) to perform the duties of other personnel who are temporarily assigned to FEMA-approved activities outside their core responsibilities. Neither overtime nor backfill expenses are the result of an increase of FTE employees.
- **Supplanting** – Grant funds will be used to supplement existing funds, and will not replace (supplant) funds that have been appropriated for the same purpose. Applicants or grantees may be required to supply documentation certifying that a reduction in non-Federal resources occurred for reasons other than the receipt or expected receipt of Federal funds.

#### ***Construction and Renovation (SHSP, UASI)***

---

Use of HSGP funds for construction is generally prohibited except as outlined below. Such construction shall be strictly limited and allowable only when it is a necessary component of a security system at critical infrastructure facilities. OPSG, CCP, and MMRS funds may not be used for any type of construction. Project construction not exceeding \$1,000,000 is allowable as deemed necessary.

The following types of projects are considered to constitute construction or renovation and must be submitted to FEMA for compliance review under Federal environmental planning and historic preservation (EHP) laws and requirements prior to initiation of the project:

- Construction and renovation of guard facilities which are intended to provide enhanced security at grantee-designated critical infrastructure sites
- Renovation of and modifications, including the installation of security and communication equipment, to buildings and structures that are 50 years old or older

- Any other construction or renovation efforts that change or expand the footprint of a facility or structure, including security enhancements to improve perimeter security
- Physical security enhancements including, but not limited to:
  - Lighting
  - Fencing
  - Closed-circuit television (CCTV) systems
  - Motion detection systems
  - Barriers, doors, gates, and related security enhancements

***In addition, the erection of communications towers that are included in a jurisdiction's interoperable communications plan is allowed, subject to all applicable laws, regulations, and licensing provisions. Communication tower projects must be submitted to FEMA for EHP review. Per the Department of Homeland Security Appropriations Act, 2010 (Public Law 111-83), communications towers are not subject to the \$1,000,000 construction cap.***

In order to draw down funds for construction and renovation costs under HSGP, grantees must provide to FEMA:

- A description of the asset or facility; asset location, whether the infrastructure is publicly or privately owned, and the construction or renovation project
- Certification that a facility vulnerability assessment has been conducted
- An outline addressing how the construction or renovation project will address the identified vulnerabilities from the assessment
- Consequences of not implementing the construction or renovation project

### ***OPSG Allowable Costs***

---

The intent of OPSG is to focus on operational aspects of enhancing coordination between Federal, State, local, tribal, and territorial law enforcement agencies to increase the security of the U.S. Borders. While equipment is an allowable expense, the FY 2010 OPSG is not intended to be an equipment-centric grant.

- **Operational Overtime.** Operational overtime costs associated with law enforcement activities, in support of border law enforcement agencies for increased border security enhancement. Per the *PRICE of Homeland Security Act* (Public Law 110-412), all grantees are allowed to utilize up to 50 percent of their FY 2010 OPSG funding for personnel related costs, which include overtime activities. At the request of a grant recipient, the FEMA Administrator may waive the 50 percent personnel cap. Waiver decisions are at the discretion of the FEMA Administrator and will be considered on a case-by-case basis. A formal FY 2010 OPSG personnel waiver request should:
  - Be requested on official letterhead, include a written justification, and be signed by the authorized representative of the SAA
  - Include a budget and method of calculation of personnel costs both in percentage of the grant award and in total dollar amount. To avoid supplanting issues, the request must also include a three-year staffing history for the requesting entity
  - Include an approved Operations Order from the CBP/BP Sector office which supports the SAA's written justification

- Be forwarded electronically by the SAA to FEMA GPD Program Analyst
- **Part Time Personnel.** FY 2010 OPSG funds may be used to pay additional current part time law enforcement personnel salaries in order to bring them to full time status.
- **Travel, Per Diem, and Lodging.** Travel and per diem costs associated with the deployment/redeployment of personnel to border areas and for travel associated with law enforcement entities assisting other local jurisdictions in law enforcement activities. In addition, costs to support up to six (6) month deployment of law enforcement personnel to critical Southwest Border locations to support operational activities (travel costs must be in accordance with applicable travel regulations).
- **Vehicle and Equipment Rentals**
- **Vehicle/Equipment Maintenance**
- **Fuel Cost and/or Mileage Reimbursement.** The reimbursement cap for operational activities is removed under FY 2010 OPSG.
- **Activate Reserve State, local, tribal, and territorial law enforcement personnel.** Supporting a request to the Governor to activate, deploy, or redeploy specialized National Guard Units/Package and/or elements of State law enforcement to increase or augment specialized/technical law enforcement elements operational activities.
- **Backfill.** Costs associated with backfill for personnel supporting operational activities.
- **Law Enforcement Readiness.** Use of FY 2010 OPSG funds may be used to increase operational, material, and technological readiness of State, local, tribal, and territorial law enforcement agencies.

**OPSG Unallowable Costs.** OPSG unallowable costs include costs associated with staffing and general IT computing equipment and hardware, such as personal computers, faxes, copy machines, modems, etc. The FY 2010 OPSG is not intended as a hiring program. Therefore, applying funds toward hiring full-time or permanent sworn public safety officers is also unallowable. FY 2010 OPSG funding shall not be used to supplant inherent routine patrols and law enforcement operations or activities not directly related to providing enhanced coordination between local and Federal law enforcement agencies. In addition, no HSGP M&A funds may be used to support FY 2010 OPSG. Finally, construction and/or renovation costs are prohibited under OPSG. Applicants should contact their FEMA Headquarters Program Analyst at (800) 368-6498 for guidance and clarification.

***Other Allowable Costs – Maintenance and Sustainment***

---

The use of FEMA preparedness grant funds for maintenance contracts, warranties, repair or replacement costs, upgrades, and user fees are allowable under all active and future grant awards, unless otherwise noted. Grantees are reminded to be sensitive to supplanting issues. Maintenance contracts, warranties, repair or replacement costs, upgrades, and user fees previously purchased with State and or local funds cannot be

replaced with Federal grant funding. Routine upkeep (e.g., gasoline, tire replacement, routine oil changes, monthly inspections, grounds, and facility maintenance, etc.) is the responsibility of the grantee and may not be funded with preparedness grant funding.

- **Maintenance Contracts and Warranties.** To increase the useful life of the equipment, maintenance contracts and warranties may be purchased using grant funding from one fiscal year to cover equipment purchased with funding from a different fiscal year. The use of grant funding for the purchase of maintenance contracts and warranties must meet the following conditions:
  - Maintenance contracts and warranties may only be purchased for equipment that has been purchased using FEMA preparedness grant funding
  - To avoid supplementing Congressional appropriations for specific programs, maintenance contracts and warranties must be purchased using funds from the same grant program used to purchase the original equipment
  - The term of the maintenance contract or warranty shall not exceed the period of performance of the grant to which the contract is being charged
  - Equipment provided to States and local jurisdictions by the Commercial Equipment Direct Assistance Program (CEDAP) is also eligible for support through maintenance contracts and warranties since CEDAP is a one-time equipment grant program and not a recurring grant (SHSP and UASI programs only)
  - Equipment and support provided directly to States and local jurisdictions by any DHS component is also eligible for support through maintenance contracts or warranties once funding for those programs has ended. This includes the Domestic Nuclear Detection Office's (DNDO) limited duration programs such as the Southeast Transportation Pilot (SETCP), West Coast Maritime Pilot (WCMP), and Securing the Cities (STC) (SHSP and UASI programs only)
  
- **Repair and Replacement Costs.** The cost of repair and replacement parts for equipment purchased using FEMA preparedness grant funding is an allowable expense.
  - Repair and replacement parts may only be purchased for equipment that has been purchased using FEMA preparedness grant funding
  - To avoid supplementing Congressional appropriations for specific programs, repair and replacement parts must be purchased using the same grant program used to purchase the original equipment
  - Repair and replacement parts for equipment provided to States and local jurisdictions by CEDAP are also eligible for support since CEDAP is a one-time equipment grant program and not a recurring grant (SHSP and UASI programs only)
  - Repair and replacement parts for equipment provided directly to States and local jurisdictions by any DHS component are also eligible for support once funding for those programs has ended. This includes the DNDO's limited duration programs such as the SETCP, WCMP, and STC (SHSP and UASI programs only)

- **Upgrades.** FEMA preparedness grant funding may be used to upgrade previously purchased allowable equipment. For example, if the grantee purchased risk management software with HSGP funds in FY 2005 and would like to use FY 2009 grant funding to upgrade the software, this is allowable.
  - Upgrades may only be purchased for equipment that has been purchased using FEMA preparedness grant funding
  - To avoid supplementing Congressional appropriations for specific programs, upgrades must be purchased using the same grant program used to purchase the original equipment
  - Upgrades for equipment provided to States and local jurisdictions by CEDAP are also eligible for support since CEDAP is a one-time equipment grant program and not a recurring grant (SHSP and UASI programs only)
  - Upgrades for equipment provided directly to States and local jurisdictions by any DHS component are also eligible for support once funding for those programs has ended. This includes the DNDO's limited duration programs such as the SETCP, WCMP, and STC (SHSP and UASI programs only)
  
- **User fees.** User fees are viewed as costs for specific services required to maintain and provide continued operation of equipment or systems. An example would be the recurring service fees associated with handheld radios or mobile data computers.
  - User fees may only be paid for equipment that has been purchased using FEMA preparedness grant funding
  - To avoid supplementing Congressional appropriations for specific programs, user fees must be paid for using the same grant program used to purchase the original equipment. The service time purchased shall not exceed the period of performance of the grant to which the user fee is being charged
  - User fees for equipment provided to States and local jurisdictions by CEDAP are also eligible for support since CEDAP is a one-time equipment grant program and not a recurring grant (SHSP and UASI programs only)
  - User fees for equipment provided directly to States and local jurisdictions by any DHS component also eligible for support once funding for those programs has ended. This includes the DNDO's limited duration programs such as the SETCP, WCMP, and STC (SHSP and UASI programs only)
  - Requests for maintenance, repair or replacement costs, upgrades or user fees for equipment purchased with funds from FEMA preparedness grants that no longer exist (e.g., Law Enforcement Terrorism Prevention Program [LETPP]) are allowable. Sufficient documentation should be maintained to identify the original grant used to purchase the equipment (SHSP and UASI programs only)
  
- **Implementation.** Planned or actual expenditures for maintenance contracts and warranties, repair and replacement costs, upgrades, and user fees must be reflected in the Initial Strategy Implementation Plan (ISIP) or Biannual Strategy Implementation Report (BSIR).

Grantees must comply with all the requirements in 44 CFR Part 13 and 2 CFR Part 215.

### ***Other Allowable Costs - Secure Identification (SHSP)***

In addition to the expenditures outlined above, SHSP funds may be used to support the implementation activities associated with the Western Hemisphere Travel Initiative (WHTI), including the issuance of WHTI-compliant tribal identification cards. More information on the WHTI may be found at

[http://www.dhs.gov/files/programs/qc\\_1200693579776.shtm](http://www.dhs.gov/files/programs/qc_1200693579776.shtm) or  
[http://www.getyouhome.gov/html/eng\\_map.html](http://www.getyouhome.gov/html/eng_map.html).

### ***Other Secure Identification Initiatives***

SHSP funds may also be used to support the Department's additional efforts to enhance secure identification. Activities that facilitate secure identification, including IT enhancements for identification management and verification systems, are a priority. DHS is currently developing and implementing a number of high profile screening programs in which secure identification credentials figure prominently. These include the Driver's License Security Grant Program (DLSGP) which aims to enhance the security, integrity, and protection of licensing and identification systems across the country; the Transportation Worker Identification Credential (TWIC) program which promotes tamper-resistant biometric credentials for workers who require unescorted access to secure areas of ports, vessels, outer continental shelf facilities, and all credentialed merchant mariners; and the credentialing of first responders which entails enhancing real-time electronic authentication of identity and attribute(s) (qualification, certification, authorization, and/or privilege) of emergency response/critical government personnel responding to terrorist attacks or other catastrophic events.

DLSGP specific allowable activities include: planning activities related to DLSGP compliance, related personal identification verification systems enhancements, personnel and management costs related to DLSGP compliance activities, and acquisitions for hardware and software related to ensuring compatibility with DLSGP technologies.

With respect to TWIC, specific allowable activities include: projects that involve new installations or upgrades to access control and identity management systems that exhibit compliance with TWIC standards and program specifications.

As to credentialing of first responders, specific allowable activities include: development of standards-based technologies, policies, protocols, and practices for portable and functional solutions to first responder identification and verification issues.

*Note: Secure identification projects requested and funded under SHSP must directly support SHSP mission goals and cannot supplant projects/activities funded under other grant programs (e.g., DLSGP).*

**MMRS Planning.** The MMRS Leadership shall ensure that local strategic goals, objectives, operational capabilities, and resource requirements align with State and Urban Area Homeland Security Strategies. Critical factors in planning are to ensure that MMRS jurisdictions have:

- Applicable and up to date plans for responding to mass casualty incidents caused by any hazards
- Applicable procedures and operational guides to implement the response actions within the local plan including patient tracking that addresses identifying and tracking children and keeping families intact where possible
- Identified resources for medical supplies necessary to support children during an emergency, including pharmaceuticals and pediatric-sized equipment on which first responders and medical providers are trained

**CCP Planning.** Integrating non-governmental entities into the planning process is critical to achieve comprehensive community preparedness. To meet this important objective, HSGP funds may be used to support the following:

- Establishing and sustaining bodies to serve as Citizen Corps Councils
- Assuring that State and local government homeland security strategies, policies, guidance, plans, and evaluations include a greater emphasis on government/non-governmental collaboration, citizen preparedness, and volunteer participation
- Developing and implementing a community preparedness strategy for the State/local jurisdiction
- Developing or reproducing accessible public education and outreach materials to: increase citizen preparedness and knowledge of protective actions (to include the national *Ready Campaign* materials); promote training,

exercise, and volunteer opportunities; and inform the public about emergency plans, evacuation routes, shelter locations, and public alerts/warnings

- All public education and outreach materials must include the national or jurisdiction's Citizen Corps logo, tagline or website or the Ready logo, tagline, or website and comply with logo standards. For more information go to <http://www.citizencorps.gov>. In addition, all public education and outreach materials should incorporate special needs considerations, to include language, content, and method of communication
- Allowable expenditures include:
  - Media campaigns: Public Service Announcements (PSAs), camera-ready materials, website support, and newsletters
  - Outreach activities and public events: Booth displays, event backdrops or signs, displays and demonstrations, utilizing translation services, and informational materials such as brochures/flyers

- Establishing, expanding, and maintaining volunteer programs and volunteer recruitment efforts that support disaster preparedness and/or response.
  - Citizen support for emergency responders is critical through year-round volunteer programs and as surge capacity in disaster response. Citizen Corps funding may be used to establish, expand, or maintain volunteer programs that support disaster preparedness and/or response including but not limited to: Neighborhood Watch/USAonWatch, Community Emergency Response Teams (CERT), Volunteers in Police Service (VIPS), Medical Reserve Corps (MRC), Fire Corps, Citizen Corps Affiliate Programs and Organizations, and jurisdiction specific volunteer efforts
  - Allowable expenditures include:
    - Recruiting, screening, and training volunteers (e.g., background checks)
    - Retaining, recognizing, and motivating volunteers (e.g., volunteer recognition items such as certificates or plaques)
    - Purchasing, maintaining, or subscribing to a system to track volunteers (to include identification and credentialing systems, and to track volunteer hours) and other available resources in compliance with applicable privacy laws
    - Necessary non-structural accommodations to include persons with special needs (e.g., sign language interpreters)
    - Evaluating volunteers

- Organizational activities supported with CCP funding are limited to 25 percent of the grantee's CCP funding. Organizational activities include hiring of full- or part-time staff or contractors for emergency management activities.

### ***Additional Equipment Information***

---

**MMRS Equipment.** MMRS funds may be used for equipment acquisition from the MMRS equipment categories listed in the AEL. MMRS grant funds are intended to ensure an appropriate supply of pharmaceuticals and equipment, personal protective equipment, as well as detection equipment for chemical, biological, radiological, nuclear, and explosive incidents for the first crucial hours of a response to a mass casualty incident.

MMRS grant funds cannot be used to duplicate supplies already available through local and State sources, including local/regional public health offices and hospital associations, or other Federal programs.

Procurements should have a sound threat based justification with an aim to reduce the consequences of mass casualty incidents during the first crucial hours of a response.

Prior to procuring pharmaceuticals and equipment with MMRS grant funds, grantees must have in place an inventory management plan. The inventory management plan should avoid large periodic variations in supplies due to coinciding purchase and expiration dates. MMRS grantees are strongly encouraged to enter into rotational procurement agreements with vendors and distributors.

Purchases of pharmaceuticals have to include a budget for the disposal of expired drugs within the period of performance of the FY 2010 HSGP. The cost of disposal cannot be carried over to another FEMA grant or grant period.

**CCP Equipment.** States and Urban Areas are encouraged to fully leverage all HSGP resources for equipment to support volunteer personnel in preparedness and response. All allowable equipment costs are listed in the AEL, available at <https://www.rkb.us>.

Any equipment purchased with CCP funding must be used for specific preparedness or volunteer training or by volunteers in carrying out their response functions. CCP funding is intended only to be used for specific preparedness or volunteer training or by trained volunteers in carrying out their response functions. Examples of equipment used to support training and exercises for citizens include items such as burn pans or sample preparedness kits.

Expenditures for kits used in volunteer response (e.g., CERT or MRC kits / backpacks) or clothing for official identification must not exceed 30 percent of the

total Citizen Corps Program allocation. Clothing for official identification includes those items that volunteers are required to wear when engaging in public safety activities or disaster response (e.g., t-shirts for CERT members, baseball caps for Neighborhood Watch/USAonWatch Program foot patrol members).

### ***Training Information and Requirements***

---

1. **Training Information Reporting System (“Web-Forms”).** Web-Forms is an electronic form/data management system built to assist the SAA and its designated State/territory Training Point of Contact (TPOC) with the reporting of State and Federal sponsored training supported by HSGP funds. An updated version of this catalog can be accessed at <http://www.firstrespondertraining.gov>.

**FEMA Provided Training.** FEMA funds the direct delivery of a variety of courses that States, tribes, and territories can request to meet training needs. These courses are listed in the FEMA approved course catalog listed at <http://www.firstrespondertraining.gov>.

Each FEMA training partner should contact the SAA or designated TPOC for locations within the State that are appropriate for the training. When the direct delivery funds are exhausted, the training partner can continue to offer the classes to the States through one of two methods—the Voluntary Training Enhancement Program (VTEP) or the Excess Delivery Acquisition Program (EDAP).

VTEP is a voluntary program designed to increase flexibility for States and territories while enhancing FEMA's training delivery capability and complementing the current training partner pool. Funding from previous fiscal years **may** be used to support a State, territory, or Urban Area's implementation of this program. Through VTEP, the SAA has the authority to adopt various Training and Exercise Integration / Training Operations (TEI/TO) provided programs for delivery by institutions within its State and local jurisdictions, and designate institutions as recognized providers for the identified standardized curriculum.

EDAP allows a FEMA training partner to charge for a course delivery when the Federal grant that developed the program is completed or more deliveries of a requested class are needed than the grant funds can accommodate. This cost per class is approved by FEMA so that States pay for the cost of instruction only, not the curriculum development costs that were paid by FEMA training grant funds. HSGP funds can be used to pay for the delivery of these classes within a State at the request of the SAA/TPOC.

**Attending Training Not Provided by FEMA (State or Federal Sponsored Courses).** States, territories, and Urban Areas are not required to request approval from FEMA for personnel to attend training not provided by FEMA (State or Federal-sponsored courses) provided that the training is coordinated with and approved by the SAA or TPOC and falls within the FEMA mission scope and the jurisdiction's EOP and strategy of preparing State, local, tribal, and territorial personnel or citizens to prevent, protect against, respond to, and recover from acts of terrorism or catastrophic events.

States, territories, and Urban Areas are required, within 30 days after attendance, to submit information through the SAA or TPOC via Web-Forms on all training not provided by FEMA, but supported with HSGP funds. This information will consist of course title, course description, mission area, level of training, the training provider, the date of the course, the number and associated disciplines of the individuals, and the sponsoring jurisdiction. States, territories, and Urban Areas intending to use FEMA funds to support attendance at training not provided by FEMA must ensure these courses:

- Fall within the FEMA mission scope to prepare State, local, tribal, and territorial personnel to prevent, protect against, respond to, and recover from acts of terrorism and catastrophic events
- Build additional capabilities that: (a) support a specific training need identified by the State, territory, and Urban Area, and (b) comport with the State, territory, or Urban Area Homeland Security Strategy
- Address specific tasks and/or competencies articulated in FEMA's *Emergency Responder Guidelines* and the *Homeland Security Guidelines for Prevention and Deterrence*
- Address specific capabilities and related tasks articulated in the September 2007 version of the TCL
- Support the specific program training activities identified in the individual HSGP grant programs (SHSP, UASI, OPSG, MMRS, CCP) for which the funding will be used
- Comport with all applicable Federal, State, and local regulations, certifications, guidelines, and policies deemed appropriate for the type and level of training

In support of the continuing efforts to build common catalogs of approved training not provided by FEMA, the SAA/TPOC will be allowed three deliveries of the same course within a State/territory before the course is required to go through the FEMA State course review and approval process. Additional course deliveries will be authorized during the review period. However, if the course is disapproved as part of the process, no additional FEMA funds can be dedicated to attending the course.

**State and Federal-Sponsored Course Catalogs.** Courses approved by FEMA will be added to either the approved State Sponsored Course Catalog or the Federal Sponsored Course Catalog. Courses identified within these catalogs may be attended on an unlimited basis within any State/territory as long as the training is coordinated and approved by the SAA/TPOC. A full description of the FEMA Course Development, Review, and Approval Process, as well as the approved course catalogs, can be found at [http://www.firstrespondertraining.gov/odp\\_webforms](http://www.firstrespondertraining.gov/odp_webforms).

FEMA will respond to the initial request for review within 15 days with one of the following outcomes:

- Course concept is approved as consistent with the State plan and the State should submit the full course package for subject matter expert review and comment.
- Course concept is disapproved as inconsistent with State plan, FEMA guidance, or is exactly the same as another course in the catalog (no need for another approval, refer to the curriculum already developed and approved).

At any time, the SAA/TPOC (for State-sponsored courses) or the Federal Agency POC (for Federal sponsored courses) may request the addition of a course to the corresponding approved catalog by submitting the associated Web-Form (i.e., Request for Addition to the Approved State-Sponsored Catalog) for review. If a class on the same subject is already in the catalog, the submitting State should provide documentation as to why the course is unique, after contacting the owner(s) of the other

courses to review the curriculum. This step is required to avoid unnecessary duplication of similar courses in the catalog, allow States to share course development costs, permit all States to have access to new or unique courses developed by other providers, and allow States to direct their training dollars to delivery rather than development. If it is determined that the proposed course meets the above listed criteria, the providing entity (SAATPOC or Federal Agency POC) will be invited to submit the Course Review and Approval Request Form along with all supporting training materials.

For further information on developing courses using the instructional design methodology and tools that can facilitate the process, SAAs and TPOCs are encouraged to review the FEMA Strategy for Blended Learning and access the Responder Training Development Center (RTDC) available at <http://www.firstrespondertraining.gov/rtdc/state/>.

FEMA funds must be used to supplement, not supplant, existing funds that have been appropriated for the same purpose. FEMA will conduct periodic reviews of all State, territory, and Urban Area training funded by FEMA. These reviews may include requests for all course materials and physical observation of, or participation in, the funded training. If these reviews determine that courses are outside the scope of this guidance, grantees will be asked to repay grant funds expended in support of those efforts.

States and territories are required to conduct an Improvement Plan Workshop and Training and Exercise Plan Workshop to identify best practices, capability gaps, key priorities, and major events over a multi-year time frame and to align training and exercises in support of those priorities. A Multi-year Training and Exercise Plan will be produced from the Training and Exercise Plan Workshop to include the State's training and exercise priorities, associated training and exercise capabilities, and a multi-year training and exercise schedule. Further guidance concerning the Multi-year Training and Exercise Plan can be found in the Exercises discussion immediately following.

**CCP Training.** Training funded through the CCP includes but is not limited to: all-hazards safety such as emergency preparedness, basic first aid, life saving skills, crime prevention and terrorism awareness, school preparedness, public health issues, mitigation/property damage prevention, safety in the home, light search and rescue skills, principles of NIMS/ICS, community relations, volunteer management, serving people with disabilities, pet care preparedness, any training necessary to participate in volunteer activities, any training necessary to fulfill surge capacity roles, or other training that promotes individual, family, or community safety and preparedness. There is no cap on the number of deliveries State or local jurisdictions may conduct of non-responder community-based training workshops, seminars, demonstrations, or conferences. Examples include: CPR/AED training, identity theft workshops, terrorism awareness seminars, chain-saw safety demonstrations, and community preparedness conferences.

Funding for CERT training includes the delivery of the CERT Basic Training Course, supplemental training for CERT members who have completed the basic training, and the CERT Train-the-Trainer training. Any CERT Basic training conducted by State or local entities must: 1) include the topics covered in the FEMA CERT Basic Training Course; 2) be instructor-led; and 3) classroom-based, using lecture, demonstration, and hands-on practice throughout. Note that the Independent Study course, "Introduction to CERT" (IS 317) must not be substituted for classroom delivery of CERT Basic Training. There is no cap on the number of deliveries State or local jurisdictions may conduct of the CERT Basic Training, the CERT Train-the-Trainer, Campus CERT Train-the-Trainer, or Teen CERT Train-the-Trainer courses, or supplemental/advanced training for CERT program participants.

Any training supported with these CCP funds should be delivered with specific consideration to include all ages, ethnic and cultural groups, persons with disabilities, and special needs populations at venues throughout the community, to include schools, neighborhoods, places of worship, the private sector, non-governmental organizations, and government locations. Expenditures to provide necessary non-structural accommodations for persons with special needs is allowable (e.g., sign language interpreters). Jurisdictions are also encouraged to leverage existing training provided via educational/professional facilities and to incorporate non-traditional methodologies such as the internet, distance learning, or home study whenever such delivery supports training objectives. Pilot courses and innovative approaches to training citizens and instructors are encouraged.

Instruction for trainers and training to support the Citizen Corps Council members in their efforts to manage and coordinate the Citizen Corps mission is also an allowable use of the FY 2010 CCP funding.

#### ***Allowable Training Costs***

Allowable training-related costs include, but are not limited to, the following:

- **Developing, Delivering, and Evaluating Training** – Includes costs related to administering the training, planning, scheduling, facilities, materials and supplies, reproduction of materials, and equipment.
- **Overtime and Backfill** – The entire amount of overtime costs, including payments related to backfilling personnel, which are the direct result of attendance at FEMA and/or approved training courses and programs, are allowable. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.

- **Travel** – Costs (e.g., airfare, mileage, per diem, hotel) are allowable as expenses by employees who are on travel status for official business related to approved training.
- **Hiring of Full or Part-Time Staff or Contractors/Consultants** – Payment of salaries and fringe benefits to full or part-time staff or contractors/consultants must be in accordance with the policies of the State or unit(s) of local government and have the approval of the State or awarding agency, whichever is applicable. Such costs must be included within the funding allowed for program management personnel expenses, which must not exceed 15 percent of the total allocation as specified in section E.6. In no case is dual compensation allowable (see above).
- **Certification/Recertification of Instructors** – States are encouraged to follow the FEMA Instructor Quality Assurance Program to ensure a minimum level of competency and corresponding levels of evaluation of student learning. This is particularly important for those courses that involve training of trainers. This information is contained in Information Bulletin #193, issued October 20, 2005.

### ***Exercise Requirements***

---

1. **Training and Exercise Plan Workshop.** States and Urban Areas are required to conduct an annual Improvement Plan Workshop (IPW) and a Training and Exercise Plan Workshop (TEPW). A Multi-year Training and Exercise Plan must be developed from the workshops and submitted to the State's respective Exercise Manager and Program Analyst. This plan must be updated annually.

The Training and Exercise Plan will include the State's prioritized capabilities and a multi-year training and exercise schedule that supports the identified capabilities. The Plan, inclusive of the training and exercise schedule, must be submitted within 90 days of the workshop. All scheduled training and exercises must be entered in the National Exercise Schedule (NEXS), located in the HSEEP Toolkit on the HSEEP website <https://hseep.dhs.gov>. An IPW and TEPW user guide and a template of the Multi-Year Training and Exercise Plan can be found on the HSEEP website <https://hseep.dhs.gov>.

States must complete a cycle of exercise activity during the period of this grant. States and Urban Areas are encouraged to use exercises as an opportunity to meet the requirements of multiple exercise programs. To this end, grantees are encouraged to invite representatives/planners involved with other Federally-mandated or private exercise activities. States and Urban Areas are encouraged to share, at a minimum, the multi-year training and exercise schedule with those departments, agencies, and organizations included in the plan.

2. **Exercise Scenarios.** The scenarios used in HSGP-funded exercises must be based on the State/Urban Area's Homeland Security Strategy and plans. Acceptable scenarios for SHSP, UASI, MMRS, and CCP exercises include: chemical, biological, radiological, nuclear, explosive, cyber, agricultural and natural

or technological disasters. Exercise scenarios must be catastrophic in scope and size as defined by the *National Response Framework*.

The scenarios used in HSGP-funded exercises must focus on validating existing capabilities and must be large enough in scope and size to exercise multiple tasks and warrant involvement from multiple jurisdictions and disciplines and non-governmental organizations. Exercise scenarios should also be based on the Multi-year Training and Exercise Plan.

- 3. Special Event Planning.** If a State or Urban Area will be hosting a special event (e.g., Super Bowl, G-8 Summit) they are approved to participate in a Tier I or Tier II exercise as approved by the National Exercise Program (NEP) Executive Steering Committee per the NEP Implementation Plan. They should plan to use SHSP or UASI funding to finance training and exercise activities in preparation for those events. States and Urban Areas should also consider exercises at major venues (e.g., arenas, convention centers) that focus on evacuations, communications, and command and control. States should also anticipate participating in at least one Regional Exercise annually. States must include all confirmed or planned special events in the Multi-year Training and Exercise Plan.
- 4. Exercise Evaluation.** All exercises will be capabilities and performance-based and evaluated using Exercise Evaluation Guides (EEGs) found on the HSEEP website at <https://hseep.dhs.gov>. An After-Action Report/Improvement Plan (AAR/IP) will be prepared and submitted to the FEMA Grants and Preparedness Community of Interest (COI) on the Homeland Security Information Network (HSIN) within 90 days following completion of the exercise, regardless of type or scope. AAR/IPs must conform to the HSEEP format, should capture objective data pertaining to exercise conduct, and must be developed based on information gathered through EEGs found in HSEEP. All applicants are encouraged to use the Lessons Learned Information Sharing System as a source for lessons learned and to exchange best practices.
- 5. Self-Sustaining Exercise Programs.** States are expected to develop a self-sustaining exercise program. A self-sustaining exercise program is one that is successfully able to implement, maintain, and oversee the Multi-year Training and Exercise Plan, including the development and delivery of HSGP-funded exercises. The program must utilize a multi-disciplinary approach to the development and delivery of exercises, and build upon existing plans, training, and equipment.
- 6. Role of Non-Governmental Entities in Exercises.** Non-governmental participation in all levels of exercises is strongly encouraged. Leaders from non-governmental entities should be included in the planning, conduct, and evaluation of an exercise. State, local, tribal, and territorial jurisdictions are encouraged to develop exercises that test the integration and use of non-governmental resources provided by non-governmental entities, defined as the private sector and private non-profit, faith-based, community, volunteer, and other non-governmental

organizations. Non-governmental participation in exercises should be coordinated with the local Citizen Corps Council(s) and other partner agencies.

**MMRS Exercises.** The scenarios used in MMRS exercises should focus on incidents that would be catastrophic to the grant implementer's community and/or have national impact caused by any hazard. Grantees are encouraged to use scenarios with a focus on medical issues related to preparedness and response. Scenarios should test appropriate Target Capabilities that support the MMRS mission.

Citizen participation in exercises is strongly encouraged and should be coordinated with the local Medical Reserve Corps and Citizen Corps Council. Volunteer roles and responsibilities include, but are not limited to, backfilling non-professional tasks for first responders deployed on exercise planning and implementation, providing simulated victims, media, and members of the public, supporting surge capacity functions, and participating in the after-action review.

MMRS jurisdictions, in coordination with regional, Urban Area, and State exercises, and public health officials (e.g., EMS), are expected to schedule, design, conduct, and evaluate mass casualty exercises that are in compliance with both FEMA and CDC Public Health Emergency Preparedness Cooperative Agreement Exercise requirements and guidance.

**CCP Exercises.** Exercises specifically designed for or that include participation from non-governmental entities and the general public are allowable activities and may include testing public warning systems, evacuation/shelter in-place capabilities, family/school/business preparedness, and participating in table-top or full scale emergency responder exercises at the local, State, tribal, territorial, or national level, to include the National Level Exercises (formally known as Top Officials Exercise [TQPOFF]).

#### ***Allowable Exercise Costs***

Allowable exercise-related costs include:

- **Funds Used to Design, Develop, Conduct, and Evaluate an Exercise** – Includes costs related to planning, meeting space and other meeting costs, facilitation costs, materials and supplies, travel, and documentation. Grantees are encouraged to use government facilities to conduct meetings and conferences whenever possible.
- **Hiring of Full or Part-Time Staff or Contractors/Consultants** – Full or part-time staff may be hired to support exercise-related activities. Such costs must be included within the funding allowed for program management personnel expenses, which must not exceed 15 percent of the total allocation. The applicant's formal written procurement policy or the Federal Acquisition Regulations (FAR) – whichever is more stringent – must be followed. In no case is dual compensation allowable.

- **Overtime and Backfill** – The entire amount of overtime costs, including payments related to backfilling personnel, which are the direct result of time spent on the design, development, and conduct of exercises are allowable expenses. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.
- **Travel** – Travel costs are allowable as expenses by employees who are on travel status for official business related to the planning and conduct of exercise project(s) or HSEEP programmatic requirements as described in the HSEEP website (e.g., Improvement Plan Workshops, Training and Exercise Plan).
- **Supplies** – Supplies are items that are expended or consumed during the course of the planning and conduct of the exercise project(s) (e.g., copying paper, gloves, tape, non-sterile masks, and disposable protective equipment).
- **Other Items** – These costs include the rental of equipment (e.g., portable toilets, tents), food, gasoline, exercise signs, badges, etc.

***Unauthorized Exercise Costs***

Unauthorized exercise-related costs include:

- Reimbursement for the maintenance and/or wear and tear costs of general use vehicles (e.g., construction vehicles) and emergency response apparatus (e.g., fire trucks, ambulances).
- Equipment that is purchased for permanent installation and/or use, beyond the scope of exercise conduct (e.g., electronic messaging signs).

# LOS ANGELES REGIONAL INTEROPERABLE COMMUNICATIONS SYSTEM AUTHORITY

2525 Corporate Place, Suite 200  
Monterey Park, California 91754  
(323) 881-8291

PATRICK J. MALLON  
EXECUTIVE DIRECTOR

October 2, 2014

Board of Directors  
Los Angeles Regional Interoperable Communications System Authority (the "Authority")

Dear Directors:

## **APPROVE NEGOTIATIONS FOR A SOLE SOURCE AGREEMENT FOR THE ACQUISITION OF AN OUTSIDE FREQUENCY COORDINATOR FOR FEDERAL COMMUNICATIONS COMMISSION (FCC) AND RADIO SPECTRUM MATTERS**

### **SUBJECT**

Board approval is requested to authorize the Executive Director to negotiate a sole source agreement (Agreement) for acquisition of an outside Frequency Coordinator to serve as the Authority's subject matter expert on all matters concerning the FCC, serve as a liaison between the FCC and the Authority, and find suitable radio spectrum for the Authority's use.

### **RECOMMENDED ACTION**

It is recommended that your Board:

Delegate authority to the Executive Director to enter into negotiations for an Agreement with Mr. Ronald Wong to 1) serve as an FCC subject matter expert to the Authority, 2) serve as a liaison between the FCC and the Authority, and 3) assist the Authority with finding suitable radio spectrum, all for a period not to exceed six (6) months.

### **BACKGROUND**

On August 15, 2013, your Board awarded Agreement No. LA-RICS 007 for Los Angeles Regional Interoperable Communications System Land Mobile Radio (LMR) Network, a hybrid, integrated, regional public safety wireless communications system, operating in both UHF T-Band and 700 MHz spectrum, that, when built, will provide public safety first responders real time mission critical voice and data communications to support day-to-day, mutual aid, task force, and provide immediate and coordinated assistance in times of emergency, thereby minimizing the loss of life and property within the greater Los Angeles region.

The purpose of this hybrid system is to provide a logical path for the Authority to operate full public safety grade communications on both spectrums and allow for a gradual migration that

**AGENDA ITEM 8**

Mr. Wong is a current employee of the County in the Internal Services Department ("ISD"), and is expected to retire from County service in October 2014. While at LA-RICS, Mr. Wong's role has been instrumental in representing the Authority in all matters concerning the Authority's use of radio spectrum as well as coordinating and obtaining licensing applications and waivers submitted to the FCC.

#### **PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION**

Approval of the recommended actions would allow the Authority to negotiate an agreement with Mr. Wong, who the Authority considers an integral component to the LA-RICS project. It is crucial to the Authority to enter into an Agreement with Mr. Wong as he possesses extensive knowledge of FCC licensing, applications, and waivers and maintains working relationships with the FCC and Radio Frequency committees as it relates to the LA-RICS project. Mr. Wong is currently employed with ISD and has been assigned to the LA-RICS project for approximately five years. Mr. Wong serves as the current liaison between the FCC and the Authority, but is expected to retire from the County of Los Angeles in October 2014. Mr. Wong has 43 years of experience in this field, of which 25 have been working for the County of Los Angeles. He currently sits on the California Public-Safety Radio Association (CPRA) as the Alternate Frequency Planning Coordinator and is the past Chair of the 800 MHz Regional Planning Committee. Due to the Authority's limited personnel resources and aggressive project deadlines, an Agreement between the Authority and Mr. Wong would allow for LA-RICS to continue to have its critical FCC matters timely handled by a person who is very knowledgeable about the LA-RICS project and its FCC needs, while also allowing for a period not to exceed six months to successfully transition Mr. Wong's position as an FCC Coordinator to another. The Authority will return to your Board to request permission for delegated authority to execute an Agreement between the Authority and Mr. Wong, if an agreement is successfully reached between the parties.

#### **FISCAL IMPACT/FINANCING**

There is no fiscal impact.

#### **FACTS AND PROVISIONS/LEGAL REQUIREMENT**

The Authority's counsel has reviewed the recommended actions.

#### **AGREEMENTS/CONTRACTING**

Upon the Board's approval of the recommended action, on behalf of the Authority, the Executive Director will have authority to enter into negotiations for an Agreement with Mr. Wong.

PATRICK J. MALLON  
EXECUTIVE DIRECTOR

October 2, 2014

Board of Directors  
Los Angeles Regional Interoperable Communications System ("LA-RICS") Authority  
(the "Authority")

Dear Directors:

### **ELECTIONS FOR AT-LARGE BOARD MEMBERS**

#### **RECOMMENDED ACTION**

It is recommended that your Board set April 2, 2015 for mail-in-ballot election of the four (4) At-Large Director and four (4) Alternate Director seats. The Board should note that only member agencies of the Authority are eligible to vote for the At-Large Director seats and to hold such seats, and the current Opt-Out period for member agencies following adoption of the Funding Plan does not run until November 24, 2015.

#### **BACKGROUND**

On June 2, 2011, the Board of Directors approved a motion to suspend Section 3.01 of the Authority's Bylaws for a period of one year (per Article III Section 3.01 of the Bylaws), thereby postponing the At-Large Director and Alternate Director elections.

On December 15, 2011, the Board of Directors approved a motion to set the At-Large Member Directors and Alternate Directors mail-in ballot elections for Thursday, June 7, 2012, with the caveat that the Authority's counsel would review the consistency of the Authority's Bylaws with the Joint Powers Agreement regarding which member cities may vote for the At-Large Directors and Alternate Directors.

On February 2, 2012, the Board of Directors approved a motion to vacate the election timeline established since the date selected for the election did not meet the 6-month requirement outlined in the Bylaws due to the rescheduling of the December Board meeting.

On February 27, 2012, we provided the Board of Directors with a confidential attorney-client communication from the Authority's counsel regarding the consistency of the Authority's Bylaws with the Joint Powers Agreement regarding which member cities may vote for the At-Large Directors and Alternate Directors.

On April 5, 2012, the Board of Directors approved a motion to extend the terms of the existing At-Large Directors and Alternate Directors until the new Directors and Alternates were seated.

On June 7, 2012, an item was placed on the Board's agenda to set the date for the elections of the At-Large Directors and Alternate Directors. Board Chair Fujioka asked that the item be continued because critical decisions lay ahead for the Authority and an election would be disruptive. Board Member Alexander concurred and suggested that the Board consider at the next meeting suspending the pertinent provisions of the Authority's Bylaws for a period of one year or whatever time is appropriate.

On July 11, 2012, the Board of Directors approved a motion to suspend Section 3.01 of the Authority's Bylaws until August 1, 2013, thereby suspending elections of the At-Large Directors and Alternate Directors.

On March 14, 2013, the Board temporarily suspended Section 3.01 of the Authority's Bylaws and extended the term of the current At-Large Director and Alternate Director seats to April 3, 2014 to allow for continued consistency in the make-up of the Authority's Board to address and complete the LMR and LTE procurements and Funding Plan related issues, was approved.

On October 3, 2013, before the April 3, 2014 term expired, the Board again temporarily suspended Section 3.01 of the Authority's Bylaws and extended the term of the current At-Large Director and Alternate Director seats to April 2, 2015 to allow for continued consistency in the make-up of the Authority's Board to address and complete the LMR and LTE procurements and Funding Plan related issues, was approved.

To be in full compliance with the six-month requirement set forth in Section 3.01 of the Authority's Bylaws, the Board of Directors is required to announce and set at least six-months before, the date of April 2, 2015 as the Board of Directors meeting for which a mail-in ballot election of the At-Large Director and Alternate Director seats would be conducted.

#### **PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION**

The purpose of this recommended action is to set the date for At-Large Member Directors and Alternate Directors mail-in ballot elections for **Thursday, April 2, 2015**. This date is in compliance with the requirements in Section 3.01 of the bylaws.

The following four (4) At-Large Director seats and four (4) Alternate director seats are up for election:

Director Seat 1	Seat previously held by Torrance
Director Seat 2	Seat currently held by Culver City
Director Seat 3	Seat previously held by Burbank
Director Seat 4	Seat currently held by Covina

Alternate Seat 1	Seat previously held by El Segundo
Alternate Seat 2	Seat currently held by Beverly Hills
Alternate Seat 3	Seat previously held by Pomona
Alternate Seat 4	Seat currently held by Whittier

Section 3.01(1) of the Bylaws set forth the requirements needed for member agencies to fill the various open seats. A summary of those requirements follow below:

- Seat 1 – Member city that operates both independent police and fire departments (At Large Director);
- Seat 2 – Member city that operates an independent police and/or an independent fire department (At Large Director);
- Seat 3 – Member city that operates an independent police and/or an independent fire department (At Large Director);
- Seat 4 – Member city not otherwise represented on the Board (At Large Director);
- Seat 5 - Member city that operates both independent police and fire departments (Alternate Director to Seat 1);
- Seat 6 - Member city that operates an independent police and/or an independent fire department (Alternate Director to Seat 2);
- Seat 7 - Member city that operates an independent police and/or an independent fire department (Alternate Director to Seat 3);
- Seat 8 - Member city not otherwise represented on the Board (Alternate Director to Seat 4).

Not later than ninety (90) days prior to the date set by the Board for the mail-in ballot election, member cities interested in being a candidate to fill an At Large Director or Alternate Director position will submit to the Secretary of the Board, a written statement containing: (1) the name of their member city; (2) the name of the primary representative to fill the Board seat; (3) the position and category of the seat for which the member city is a candidate ; (4) a written statement of the member city's qualifications to hold office and any desired statements promoting their eligibility and/or candidacy.

Thirty (30) days prior to the date set by the Board for the mail-in ballot election, the Secretary of the Board will mail out to each member city the names of all declared member city candidates, the written statements of each candidate and a self-addressed return envelope for the return of such ballots.

Each member city eligible to vote will complete the ballot and return the ballot to the Secretary of the Board not later than the time and place of the Board of Directors meeting designated for the mail-in ballot election. Completed ballots may be delivered in person or mailed, as long as the ballots are received prior to the final call for receipt of ballots.

A summary of the timeline follows below:

Event	Deadline
Mail Nomination Forms	December 4, 2014
Candidate nominations due	February 5, 2015
Ballots issued to member agencies	March 5, 2015
Final call for ballots	April 2, 2015

Staff will return to the Board, as needed, to address any logistical issues for each election event.

**FISCAL IMPACT/FINANCING**

There is no fiscal impact.

**FACTS AND PROVISIONS/LEGAL REQUIREMENT**

The Authority's counsel has reviewed the recommended action.

**AGREEMENTS/CONTRACTING**

No agreements necessary.

Respectfully submitted,

PATRICK J. MALLON
