## **RECOMMENDATION TO THE LA-RICS JOINT POWERS AUTHORITY BOARD OF DIRECTORS TO APPROVE THE LA-RICS AND INTERAGENCY COMMUNICATIONS INTEROPERABILITY SYSTEM AUTHORITY ISSI CONNECTION MEMORANDUM OF UNDERSTANDING**

### **SUBJECT**

Staff requests the Joint Operations and Technical Committees recommend approval of the LA-RICS and Interagency Communications Interoperability System Authority (ICI) Inter Subsystem interface (ISSI) Memorandum of Understanding (MOU), attached hereto, for the oversight, use, control, coordination and management of the ISSI, to the Joint Powers Authority (JPA) Board of Directors (Board).

### **RECOMMENDED ACTIONS**

It is recommended the Joint Operations and Technical Committees:

1. Approve recommendation to the Board of the ICI ISSI MOU between LA-RICS and ICI, attached hereto (Enclosure), to allow for, among other things, the oversight, use, control, coordination and management of the regional Talkgroups using the ISSI connection.
2. Approve recommendation to the Board to delegate authority to the Executive Director to execute the ISSI MOU with ICI.
3. Approve recommendation to the Board to delegate authority to the Executive Director to approve and execute amendments to the ICI ISSI MOU, provided they are approved as to form by Counsel to the Authority.

**AGENDA ITEM C**

## **BACKGROUND**

In 2016 the Los Angeles and Long Beach Urban Areas Security Initiative voted to fund interoperable communications via a system-of-systems model, whereby LA-RICS would serve as the hub and other systems/networks in the region would connect to LA-RICS to achieve regional interoperability via ISSI connection. LA-RICS and ICI have completed an ISSI link between their respective networks and now wish to enter into a MOU for the oversight, use, control, coordination and management of the ISSI. This includes but is not limited to management of each agencies respective portions of the ISSI including the sixteen (16) regional ISSI talk groups to be used by member agencies, users and subscribers on each of their Land Mobile Radio (LMR) systems to avoid conflicts and prevent interference to and interruption of talk group usage, among other things.

## **PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION**

The approval of the recommended actions will ensure the Authority has an MOU in place to allow agency collaboration, coordination and management now that the ISSI link between ICI and LA-RICS has been achieved.

With respect to cost, the ISSI was purchased with grant funds, with coordination and planning work also being grant reimbursable.

The term of the MOU is effective upon date of execution and will remain in effect until terminated by either party.

## **FISCAL IMPACT/FINANCING**

The activities contemplated in the recommended actions have no fiscal impact at this time as equipment and services required to achieve the ISSI link were fully funded by Urban Areas Security Initiative (UASI) grant program with remaining collaboration, coordination and planning work to be fully reimbursable under the UASI grants.

## **FACTS AND PROVISIONS/LEGAL REQUIREMENT**

Counsel to the Authority has reviewed the recommended actions.

**CONCLUSION**

Upon the Joint Committees' approval of the recommended actions, Authority staff will present the MOU at the next available Board meeting for adoption.

Respectfully submitted,

AND

**THE LOS ANGELES REGIONAL

AUTHORITY**, a Joint Powers  
Authority, hereinafter referred to as  
"**LA-RICS**".

**WHEREAS**, LA-RICS and ICI System have jointly completed an Inter Subsystem Interface (ISSI) link between their respective networks;

**WHEREAS**, LA-RICS and ICI System wish to enter into a Memorandum of Understanding (MOU) for the oversight, use, control, coordination and management of the ISSI, including for the sixteen (16) regional ISSI talk groups identified in Exhibit A (ISSI Talk Group Names and Frequencies Matrix) attached to this MOU;

**WHEREAS**, LA-RICS and ICI System wish to oversee, control, coordinate and manage the use of their respective portions of the ISSI that each is responsible for, including the sixteen (16) Regional Talk Groups to be used by member agencies, users and subscribers on each of their Land Mobile Radio (LMR) systems, so as to avoid conflicts and prevent interference to and interruption of talk group usage;

**WHEREAS**, LA-RICS and the ICI System will require its member agencies, subscribers, and users to comply with the policies and procedures that will be prepared by the LA-RICS and ICI System for use of the sixteen (16) regional ISSI talk groups.

**WHEREAS**, the Parties acknowledge that this Agreement is not a joint powers agreement subject to the provisions of California Government Code Sections 6500 et. seq. and the Parties intend that nothing in this Agreement shall be so construed. The Parties have no intent to create hereby a separate legal entity or public agency and no such entity is hereby created.

**NOW, THEREFORE**, in consideration of the mutual promises, covenants, and conditions set forth herein, the parties hereto and each of them do agree as follows:

**1. PURPOSE**

The purpose of this MOU is to allow LA-RICS and the ICI System to oversee, manage, access and coordinate the operational ISSI, including the sixteen (16) regional ISSI talk groups for all LA-RICS and ICI System member agencies, subscribers, and users in good standing. LA-RICS and the ICI System, individually and as applicable to each of its member agencies, subscribers or users, will determine who is in good standing.

**2. ADMINISTRATION OF ISSI INCLUDING SIXTEEN (16) REGIONAL ISSI TALK GROUPS FOR LA-RICS AND ICI MEMBER AGENCIES, SUBSCRIBERS AND USERS**

In accordance with the terms and conditions of this MOU, LA-RICS and the ICI System accept administration, management, and coordination of use of the sixteen (16) regional ISSI talk groups set forth in Exhibit A (ISSI Talk Group Names and Frequencies Matrix). LA-RICS will administer the sixteen (16) regional ISSI talk groups on its LMR system and demarcated connection to the ISSI, and the ICI System will administer and mirror the same sixteen (16) regional ISSI talk groups on its LMR system and demarcated connection to the ISSI. LA-RICS and the ICI System shall coordinate with each other, and their respective member agencies, subscribers and users of their LMR systems, so as to maximize operations and to prevent interference to and interruption of the sixteen (16) regional ISSI talkgroups.

**3. LA-RICS AND ICI SYSTEM RESPONSIBILITIES**

In fulfilling the requirements of this MOU, LA-RICS and the ICI System must:

- 3.1 Each make their best effort to maintain their respective portions of the ISSI connection so that the sixteen (16) Regional Talk Groups will be available twenty-four (24) hours a day, seven (7) days a week to members, agencies, subscribers and users in good standing. Each party is responsible for maintaining their respective connection to the ISSI, as identified in Exhibit B (Network Diagram). Costs for shared portions of the ISSI connection will be jointly approved and split equally between the parties.
- 3.2 Each report any misuse of ISSI Talk Groups by anyone to the other party.
- 3.3 Each use the sixteen (16) ISSI Talk Groups for official joint public safety operations and field emergencies only. General day-to-day operations on each LMR system shall not routinely roam onto or operate upon the others' LMR system/network.

- 3.4 Each appoint their own respective representatives, the Talk Group Administrators identified in Section 6, to meet and resolve problems, plan for upgrades, perform maintenance and provide reports. Coordination of any requests for additional talk groups shall be accomplished via this process.
- 3.5 Each test the ISSI connection by member agencies, subscribers, users and system administrators only following notification to both parties. Notification to be by contacting the Talk Group Administrators listed in Section 6 (Talk Group Administrators).
- 3.6 Each only assign ISSI talk groups to member agencies, subscribers and users who are in good standing by complying with (1) the requirements and obligations of use of their respective LMR systems (as determined by LA-RICS or the ICI System for each of their member agencies, subscribers, and users), and (2) their respective LA-RICS and ICI System's Joint Powers Agreements.
- 3.7 Each notify the appropriate reciprocating ISSI Talk Group Administrator in the case of ISSI system problems or outages, planned or otherwise.

#### **4. TERM OF MOU**

- 4.1 This MOU shall commence upon execution by both parties and shall remain in effect until terminated by either party.
- 4.2 Notwithstanding the foregoing, either party shall have the option of terminating this MOU in whole or in part at any time for any reason upon giving the cancelled party notice in writing at least one hundred and eighty (180) calendar days in advance of the effective date of such termination. Following the effective date of termination of this MOU, LA-RICS and/or ICI System shall relinquish control and coordination of the ISSI Talk Groups set forth in Exhibit A (ISSI Talk Group Names and Frequencies Matrix), in accordance with Section 5 (Relinquishment of Management and Coordination of ISSI Talk Groups).

#### **5. RELINQUISHMENT OF MANAGEMENT AND COORDINATION OF ISSI TALK GROUPS**

If at any time following the execution of this MOU, LA-RICS or the ICI System requires the return of some or all of the ISSI Talk Groups as Exhibit A (ISSI Talk Group Names and Frequencies Matrix) for its management and coordination as part of LA-RICS' or ICI System's operations, the concerned party may remove their talk group(s) and/or connection to the ISSI, thus relinquishing their portion of management and control of the concerned talk groups and/or ISSI connection group(s), with one hundred eighty (180) days' notice.
